Subpart A—General Provisions

SOURCE: 67 FR 30563, May 7, 2002, unless otherwise noted.

§ 100.1 Purpose.

The regulations in this part implement the Federal Subsistence Management Program on public lands within the State of Alaska.

§ 100.2 Authority.

The Secretary of the Interior and Secretary of Agriculture issue the regulations in this part pursuant to authority vested in Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA), 16 U.S.C. 3101–3126.

§ 100.3 Applicability and scope.

(a) The regulations in this part implement the provisions of Title VIII of ANILCA relevant to the taking of fish and wildlife on public lands in the State of Alaska. The regulations in this part do not permit subsistence uses in Glacier Bay National Park, Kenai Fjords National Park, Katmai National Park, and that portion of Denali National Park established as Mt. McKinley National Park prior to passage of ANILCA, where subsistence taking and uses are prohibited. The regulations in this part do not supersede agency-specific regulations.

(b) The regulations contained in this part apply on all public lands including all non-navigable waters located on these lands, on all navigable and non-navigable water within the exterior boundaries of the following areas, and on inland waters adjacent to the exterior boundaries of the following areas:

- (1) Alaska Maritime National Wildlife Refuge;
- (2) Alaska Peninsula National Wildlife Refuge;
- (3) Aniakchak National Monument and Preserve;
- (4) Arctic National Wildlife Refuge;
- (5) Becharof National Wildlife Refuge;
- (6) Bering Land Bridge National Preserve;
- (7) Cape Krusenstern National Monument;
- (8) Chugach National Forest, excluding marine waters;
- (9) Denali National Preserve and the 1980 additions to Denali National Park;

§ 100.4

50 CFR Ch. I (10–1–04 Edition)

- (10) Gates of the Arctic National Park and Preserve;
- (11) Glacier Bay National Preserve;
- (12) Innoko National Wildlife Refuge;
- (13) Izembek National Wildlife Refuge;
- (14) Katmai National Preserve;
- (15) Kanuti National Wildlife Refuge;
- (16) Kenai National Wildlife Refuge;
- (17) Kobuk Valley National Park;
- (18) Kodiak National Wildlife Refuge;
- (19) Koyukuk National Wildlife Refuge;
- (20) Lake Clark National Park and Preserve;
- (21) National Petroleum Reserve in Alaska;
- (22) Noatak National Preserve;
- (23) Nowitna National Wildlife Refuge;
- (24) Selawik National Wildlife Refuge;
- (25) Steese National Conservation Area;
- (26) Tetlin National Wildlife Refuge;
- (27) Togiak National Wildlife Refuge;
- (28) Tongass National Forest, including Admiralty Island National Monument and Misty Fjords National Monument, and excluding marine waters;
- (29) White Mountain National Recreation Area;
- (30) Wrangell-St. Elias National Park and Preserve;
- (31) Yukon-Charley Rivers National Preserve;
- (32) Yukon Delta National Wildlife Refuge;
- (33) Yukon Flats National Wildlife Refuge;
- (34) All components of the Wild and Scenic River System located outside the boundaries of National Parks, National Preserves, or National Wildlife Refuges, including segments of the Alagnak River, Beaver Creek, Birch Creek, Delta River, Fortymile River, Gulkana River, and Unalakleet River.

(c) The public lands described in paragraph (b) of this section remain subject to change through rulemaking pending a Department of the Interior review of title and jurisdictional issues regarding certain submerged lands beneath navigable waters in Alaska.

§ 100.4 Definitions.

The following definitions apply to all regulations contained in this part:

Agency means a subunit of a cabinet-level Department of the Federal Government having land management authority over the public lands including, but not limited to, the U.S. Fish & Wildlife Service, Bureau of Indian Affairs, Bureau of Land Management, National Park Service, and USDA Forest Service.

ANILCA means the Alaska National Interest Lands Conservation Act, Public Law 96-487, 94 Stat. 2371, (codified, as amended, in scattered sections of 16 U.S.C. and 43 U.S.C.)

Area, District, Subdistrict, and Section mean one of the geographical areas defined in the codified Alaska Department of Fish and Game regulations found in Title 5 of the Alaska Administrative Code.

Barter means the exchange of fish or wildlife or their parts taken for subsistence uses; for other fish, wildlife or their parts; or, for other food or for nonedible items other than money, if the exchange is of a limited and non-commercial nature.

Board means the Federal Subsistence Board as described in § 100.10.

Commissions means the Subsistence Resource Commissions established pursuant to section 808 of ANILCA.

Conservation of healthy populations of fish and wildlife means the maintenance of fish and wildlife resources and their habitats in a condition that assures stable and continuing natural populations and species mix of plants and animals in relation to their ecosystem, including the recognition that local rural residents engaged in subsistence uses may be a natural part of that ecosystem; minimizes the likelihood of irreversible or long-term adverse effects upon such populations and species; ensures the maximum practicable diversity of options for the future; and recognizes that the policies and legal authorities of the managing agencies will determine the nature and degree of management programs affecting ecological relationships, population dynamics, and the manipulation of the components of the ecosystem.

Customary trade means exchange for cash of fish and wildlife resources regulated in this part, not otherwise prohibited by Federal law or regulation, to support personal and family needs; and

does not include trade which constitutes a significant commercial enterprise.

Customary and traditional use means a long-established, consistent pattern of use, incorporating beliefs and customs which have been transmitted from generation to generation. This use plays an important role in the economy of the community.

FACA means the Federal Advisory Committee Act, Public Law 92-463, 86 Stat. 770 (codified as amended, at 5 U.S.C. Appendix II, 1-15).

Family means all persons related by blood, marriage, or adoption or any other person living within the household on a permanent basis.

Federal Advisory Committees or *Federal Advisory Committee* means the Federal Local Advisory Committees as described in § 100.12

Federal lands means lands and waters and interests therein the title to which is in the United States, including navigable and non-navigable waters in which the United States has reserved water rights.

Fish and wildlife means any member of the animal kingdom, including without limitation any mammal, fish, bird (including any migratory, nonmigratory, or endangered bird for which protection is also afforded by treaty or other international agreement), amphibian, reptile, mollusk, crustacean, arthropod, or other invertebrate, and includes any part, product, egg, or offspring thereof, or the carcass or part thereof.

Game Management Unit or *GMU* means one of the 26 geographical areas listed under game management units in the codified State of Alaska hunting and trapping regulations and the Game Unit Maps of Alaska.

Inland Waters means, for the purposes of this part, those waters located landward of the mean high tide line or the waters located upstream of the straight line drawn from headland to headland across the mouths of rivers or other waters as they flow into the sea. Inland waters include, but are not limited to, lakes, reservoirs, ponds, streams, and rivers.

Marine Waters means, for the purposes of this part, those waters located seaward of the mean high tide line or

the waters located seaward of the straight line drawn from headland to headland across the mouths of rivers or other waters as they flow into the sea.

Person means an individual and does not include a corporation, company, partnership, firm, association, organization, business, trust, or society.

Public lands or *public land* means:

(1) Lands situated in Alaska which are Federal lands, except—

(i) Land selections of the State of Alaska which have been tentatively approved or validly selected under the Alaska Statehood Act and lands which have been confirmed to, validly selected by, or granted to the Territory of Alaska or the State under any other provision of Federal law;

(ii) Land selections of a Native Corporation made under the Alaska Native Claims Settlement Act, 43 U.S.C. 1601 *et seq.*, which have not been conveyed to a Native Corporation, unless any such selection is determined to be invalid or is relinquished; and

(iii) Lands referred to in section 19(b) of the Alaska Native Claims Settlement Act, 43 U.S.C. 1618(b).

(2) Notwithstanding the exceptions in paragraphs (1)(i) through (iii) of this definition, until conveyed or interim conveyed, all Federal lands within the boundaries of any unit of the National Park System, National Wildlife Refuge System, National Wild and Scenic Rivers Systems, National Forest Monument, National Recreation Area, National Conservation Area, new National forest or forest addition shall be treated as public lands for the purposes of the regulations in this part pursuant to section 906(o)(2) of ANILCA.

Regional Councils or *Regional Council* means the Regional Advisory Councils as described in § 100.11.

Regulatory year means July 1 through June 30, except for fish and shellfish where it means March 1 through the last day of February.

Reserved water right(s) means the Federal right to use unappropriated appurtenant water necessary to accomplish the purposes for which a Federal reservation was established. Reserved water rights include nonconsumptive and consumptive uses.

Resident means any person who has his or her primary, permanent home

for the previous 12 months within Alaska and whenever absent from this primary, permanent home, has the intention of returning to it. Factors demonstrating the location of a person's primary, permanent home may include, but are not limited to: the address listed on an Alaska Permanent Fund dividend application; an Alaska license to drive, hunt, fish, or engage in an activity regulated by a government entity; affidavit of person or persons who know the individual; voter registration; location of residences owned, rented, or leased; location of stored household goods; residence of spouse, minor children, or dependents; tax documents; or whether the person claims residence in another location for any purpose.

Rural means any community or area of Alaska determined by the Board to qualify as such under the process described in § 100.15.

Secretary means the Secretary of the Interior, except that in reference to matters related to any unit of the National Forest System, such term means the Secretary of Agriculture.

State means the State of Alaska.

Subsistence uses means the customary and traditional uses by rural Alaska residents of wild, renewable resources for direct personal or family consumption as food, shelter, fuel, clothing, tools, or transportation; for the making and selling of handicraft articles out of nonedible byproducts of fish and wildlife resources taken for personal or family consumption; for barter, or sharing for personal or family consumption; and for customary trade.

Take or *taking* as used with respect to fish or wildlife, means to pursue, hunt, shoot, trap, net, capture, collect, kill, harm, or attempt to engage in any such conduct.

Year means calendar year unless another year is specified.

§ 100.5 Eligibility for subsistence use.

(a) You may take fish and wildlife on public lands for subsistence uses only if you are an Alaska resident of a rural area or rural community. The regulations in this part may further limit your qualifications to harvest fish or wildlife resources for subsistence uses. If you are not an Alaska resident or are

a resident of a non-rural area or community listed in § 100.23, you may not take fish or wildlife on public lands for subsistence uses under the regulations in this part.

(b) Where the Board has made a customary and traditional use determination regarding subsistence use of a specific fish stock or wildlife population, in accordance with, and as listed in, § 100.24, only those Alaskans who are residents of rural areas or communities designated by the Board are eligible for subsistence taking of that population or stock on public lands for subsistence uses under the regulations in this part. If you do not live in one of those areas or communities, you may not take fish or wildlife from that population or stock, on public lands under the regulations in this part.

(c) Where customary and traditional use determinations for a fish stock or wildlife population within a specific area have not yet been made by the Board (e.g., “no determination”), all Alaskans who are residents of rural areas or communities may harvest for subsistence from that stock or population under the regulations in this part.

(d) The National Park Service may regulate further the eligibility of those individuals qualified to engage in subsistence uses on National Park Service lands in accordance with specific authority in ANILCA, and National Park Service regulations at 36 CFR Part 13.

§ 100.6 Licenses, permits, harvest tickets, tags, and reports.

(a) If you wish to take fish and wildlife on public lands for subsistence uses, you must be an eligible rural Alaska resident and:

(1) Possess the pertinent valid Alaska resident hunting and trapping licenses (no license required to take fish or shellfish, but you must be an Alaska resident) unless Federal licenses are required or unless otherwise provided for in subpart D of this part;

(2) Possess and comply with the provisions of any pertinent Federal permits (Federal Subsistence Registration Permit or Federal Designated Harvester Permit) required by subpart D of this part; and

(3) Possess and comply with the provisions of any pertinent permits, harvest tickets, or tags required by the State unless any of these documents or individual provisions in them are superseded by the requirements in subpart D of this part.

(b) In order to receive a Federal Subsistence Registration Permit or Federal Designated Harvester Permit or designate someone to harvest fish or wildlife for you under a Federal Designated Harvester Permit, you must be old enough to reasonably harvest that species yourself (or under the guidance of an adult).

(c) If you have been awarded a permit to take fish and wildlife, you must have that permit in your possession during the taking and must comply with all requirements of the permit and the regulations in this section pertaining to validation and reporting and to regulations in subpart D of this part pertaining to methods and means, possession and transportation, and utilization. Upon the request of a State or Federal law enforcement agent, you must also produce any licenses, permits, harvest tickets, tags, or other documents required by this section. If you are engaged in taking fish and wildlife under the regulations in this part, you must allow State or Federal law enforcement agents to inspect any apparatus designed to be used, or capable of being used to take fish or wildlife, or any fish or wildlife in your possession.

(d) You must validate the harvest tickets, tags, permits, or other required documents before removing your kill from the harvest site. You must also comply with all reporting provisions as set forth in subpart D of this part.

(e) If you take fish and wildlife under a community harvest system, you must report the harvest activity in accordance with regulations specified for that community in subpart D of this part, and as required by any applicable permit conditions. Individuals may be responsible for particular reporting requirements in the conditions permitting a specific community's harvest. Failure to comply with these conditions is a violation of the regulations in this part. Community harvests are

reviewed annually under the regulations in subpart D of this part.

(f) You may not make a fraudulent application for Federal or State licenses, permits, harvest tickets or tags or intentionally file an incorrect harvest report.

[67 FR 30563, May 7, 2002, as amended at 68 FR 7704, Feb. 18, 2003]

§ 100.7 Restriction on use.

(a) You may not use fish or wildlife or their parts, taken pursuant to the regulations in this part, unless provided for in this part.

(b) You may not exchange in customary trade or sell fish or wildlife or their parts, taken pursuant to the regulations in this part, unless provided for in this part.

(c) You may barter fish or wildlife or their parts, taken pursuant to the regulations in this part, unless restricted in §§ 100.25, 100.26, 100.27, or 100.28.

§ 100.8 Penalties.

If you are convicted of violating any provision of 50 CFR Part 100 or 36 CFR Part 242, you may be punished by a fine or by imprisonment in accordance with the penalty provisions applicable to the public land where the violation occurred.

§ 100.9 Information collection requirements.

(a) The rules in this part contain information collection requirements subject to Office of Management and Budget (OMB) approval under 44 U.S.C. 3501-3520. They apply to fish and wildlife harvest activities on public lands in Alaska. Subsistence users will not be required to respond to an information collection request unless a valid OMB number is displayed on the information collection form.

(1) Section 100.6, Licenses, permits, harvest tickets, tags, and reports. The information collection requirements contained in § 100.6 (Federal Subsistence Registration Permit or Federal Designated Harvester Permit forms) provide for permit-specific subsistence activities not authorized through the general adoption of State regulations. Identity and location of residence are required to determine if you are eligible for a permit and a report of success

is required after a harvest attempt. These requirements are not duplicative with the requirements of paragraph (a)(3) of this section. The regulations in § 100.6 require this information before a rural Alaska resident may engage in subsistence uses on public lands. The Department estimates that the average time necessary to obtain and comply with this permit information collection requirement is 0.25 hours.

(2) Section 100.20, Request for reconsideration. The information collection requirements contained in § 100.20 provide a standardized process to allow individuals the opportunity to appeal decisions of the Board. Submission of a request for reconsideration is voluntary but required to receive a final review by the Board. We estimate that a request for reconsideration will take 4 hours to prepare and submit.

(3) The remaining information collection requirements contained in this part imposed upon subsistence users are those adopted from State regulations. These collection requirements would exist in the absence of Federal subsistence regulations and are not subject to the Paperwork Reduction Act. The burden in this situation is negligible, and information gained from these reports is systematically available to Federal managers by routine computer access requiring less than 1 hour.

(b) You may direct comments on the burden estimate or any other aspect of the burden estimate to: Information Collection Officer, U.S. Fish and Wildlife Service, 1849 C Street, N.W., MS 222 ARLSQ, Washington, D.C. 20240; and the Office of Management and Budget, Paperwork Reduction Project (Subsistence), Washington, D.C. 20503. Additional information requirements may be imposed if Local Advisory Committees or additional Regional Councils, subject to the Federal Advisory Committee Act (FACA), are established under subpart B of this part. Such requirements will be submitted to OMB for approval prior to their implementation.

Subpart B—Program Structure

SOURCE: 67 FR 30563, May 7, 2002, unless otherwise noted.

§ 100.10 Federal Subsistence Board.

(a) The Secretary of the Interior and Secretary of Agriculture hereby establish a Federal Subsistence Board, and assign it responsibility for administering the subsistence taking and uses of fish and wildlife on public lands, and the related promulgation and signature authority for regulations of subparts C and D of this part. The Secretaries, however, retain their existing authority to restrict or eliminate hunting, fishing, or trapping activities which occur on lands or waters in Alaska other than public lands when such activities interfere with subsistence hunting, fishing, or trapping on the public lands to such an extent as to result in a failure to provide the subsistence priority.

(b) *Membership.* (1) The voting members of the Board are: a Chair to be appointed by the Secretary of the Interior with the concurrence of the Secretary of Agriculture; the Alaska Regional Director, U.S. Fish and Wildlife Service; Alaska Regional Director, National Park Service; Alaska Regional Forester, USDA Forest Service; the Alaska State Director, Bureau of Land Management; and the Alaska Regional Director, Bureau of Indian Affairs. Each member of the Board may appoint a designee.

(2) [Reserved]

(c) *Liaisons to the Board* are: a State liaison, and the Chairman of each Regional Council. The State liaison and the Chairman of each Regional Council may attend public sessions of all Board meetings and be actively involved as consultants to the Board.

(d) *Powers and duties.* (1) The Board shall meet at least twice per year and at such other times as deemed necessary. Meetings shall occur at the call of the Chair, but any member may request a meeting.

(2) A quorum consists of four members.

(3) No action may be taken unless a majority of voting members are in agreement.

(4) The Board is empowered, to the extent necessary, to implement Title VIII of ANILCA, to:

(i) Issue regulations for the management of subsistence taking and uses of fish and wildlife on public lands;

(ii) Determine which communities or areas of the State are rural or non-rural;

(iii) Determine which rural Alaska areas or communities have customary and traditional subsistence uses of specific fish and wildlife populations;

(iv) Allocate subsistence uses of fish and wildlife populations on public lands;

(v) Ensure that the taking on public lands of fish and wildlife for nonwasteful subsistence uses shall be accorded priority over the taking on such lands of fish and wildlife for other purposes;

(vi) Close public lands to the non-subsistence taking of fish and wildlife;

(vii) Establish priorities for the subsistence taking of fish and wildlife on public lands among rural Alaska residents;

(viii) Restrict or eliminate taking of fish and wildlife on public lands;

(ix) Determine what types and forms of trade of fish and wildlife taken for subsistence uses constitute allowable customary trade;

(x) Authorize the Regional Councils to convene;

(xi) Establish a Regional Council in each subsistence resource region and recommend to the Secretaries, appointees to the Regional Councils, pursuant to the FACA;

(xii) Establish Federal Advisory Committees within the subsistence resource regions, if necessary, and recommend to the Secretaries that members of the Federal Advisory Committees be appointed from the group of individuals nominated by rural Alaska residents;

(xiii) Establish rules and procedures for the operation of the Board, and the Regional Councils;

(xiv) Review and respond to proposals for regulations, management plans, policies, and other matters related to subsistence taking and uses of fish and wildlife;

(xv) Enter into cooperative agreements or otherwise cooperate with Federal agencies, the State, Native organizations, local governmental entities, and other persons and organizations, including international entities to effectuate the purposes and policies of the Federal subsistence management program;

(xvi) Develop alternative permitting processes relating to the subsistence taking of fish and wildlife to ensure continued opportunities for subsistence;

(xvii) Evaluate whether hunting, fishing, or trapping activities which occur on lands or waters in Alaska other than public lands interfere with subsistence hunting, fishing, or trapping on the public lands to such an extent as to result in a failure to provide the subsistence priority, and after appropriate consultation with the State of Alaska, the Regional Councils, and other Federal agencies, make a recommendation to the Secretaries for their action;

(xviii) Identify, in appropriate specific instances, whether there exists additional Federal reservations, Federal reserved water rights or other Federal interests in lands or waters, including those in which the United States holds less than a fee ownership, to which the Federal subsistence priority attaches, and make appropriate recommendation to the Secretaries for inclusion of those interests within the Federal Subsistence Management Program; and

(xix) Take other actions authorized by the Secretaries to implement Title VIII of ANILCA.

(5) The Board may implement one or more of the following harvest and harvest reporting or permit systems:

(i) The fish and wildlife is taken by an individual who is required to obtain and possess pertinent State harvest permits, tickets, or tags, or Federal permit (Federal Subsistence Registration Permit);

(ii) A qualified subsistence user may designate another qualified subsistence user (by using the Federal Designated Harvester Permit) to take fish and wildlife on his or her behalf;

(iii) The fish and wildlife is taken by individuals or community representatives permitted (via a Federal Subsistence Registration Permit) a one-time or annual harvest for special purposes including ceremonies and potlatches; or

(iv) The fish and wildlife is taken by representatives of a community permitted to do so in a manner consistent

with the community's customary and traditional practices.

(6) The Board may delegate to agency field officials the authority to set harvest and possession limits, define harvest areas, specify methods or means of harvest, specify permit requirements, and open or close specific fish or wildlife harvest seasons within frameworks established by the Board.

(7) The Board shall establish a Staff Committee for analytical and administrative assistance composed of members from the U.S. Fish and Wildlife Service, National Park Service, U.S. Bureau of Land Management, Bureau of Indian Affairs, and USDA Forest Service. A U.S. Fish and Wildlife Service representative shall serve as Chair of the Staff Committee.

(8) The Board may establish and dissolve additional committees as necessary for assistance.

(9) The U.S. Fish and Wildlife Service shall provide appropriate administrative support for the Board.

(10) The Board shall authorize at least two meetings per year for each Regional Council.

(e) *Relationship to Regional Councils.*

(1) The Board shall consider the reports and recommendations of the Regional Councils concerning the taking of fish and wildlife on public lands within their respective regions for subsistence uses. The Board may choose not to follow any Regional Council recommendation which it determines is not supported by substantial evidence, violates recognized principles of fish and wildlife conservation, would be detrimental to the satisfaction of subsistence needs, or in closure situations, for reasons of public safety or administration or to assure the continued viability of a particular fish or wildlife population. If a recommendation is not adopted, the Board shall set forth the factual basis and the reasons for the decision, in writing, in a timely fashion.

(2) The Board shall provide available and appropriate technical assistance to the Regional Councils.

§ 100.11 Regional advisory councils.

(a) The Board shall establish a Regional Council for each subsistence resource region to participate in the Fed-

eral subsistence management program. The Regional Councils shall be established, and conduct their activities, in accordance with the FACA. The Regional Councils shall provide a regional forum for the collection and expression of opinions and recommendations on matters related to subsistence taking and uses of fish and wildlife resources on public lands. The Regional Councils shall provide for public participation in the Federal regulatory process.

(b) *Establishment of Regional Councils; membership.* (1) The number of members for each Regional Council shall be established by the Board. A Regional Council member must be a resident of the region in which he or she is appointed and be knowledgeable about the region and subsistence uses of the public lands therein. The Board shall accept nominations and make recommendations to the Secretaries for representatives on the Regional Councils. Appointments to the Regional Councils shall be made by the Secretaries.

(2) Regional Council members shall serve 3-year terms and may be reappointed. Initial members shall be appointed with staggered terms up to 3 years.

(3) The Chair of each Regional Council shall be elected by the applicable Regional Council, from its membership, for a 1-year term and may be reelected.

(c) *Powers and Duties.* (1) The Regional Councils are authorized to:

(i) Hold public meetings related to subsistence uses of fish and wildlife within their respective regions, after the Chair of the Board or the designated Federal Coordinator has called the meeting and approved the meeting agenda;

(ii) Elect officers;

(iii) Review, evaluate, and make recommendations to the Board on proposals for regulations, policies, management plans, and other matters relating to the subsistence take of fish and wildlife under the regulations in this part within the region;

(iv) Provide a forum for the expression of opinions and recommendations by persons interested in any matter related to the subsistence uses of fish and wildlife within the region;

U.S. Fish and Wildlife Serv., Interior

§ 100.13

(v) Encourage local and regional participation, pursuant to the provisions of the regulations in this part in the decisionmaking process affecting the taking of fish and wildlife on the public lands within the region for subsistence uses;

(vi) Prepare and submit to the Board an annual report containing—

(A) An identification of current and anticipated subsistence uses of fish and wildlife populations within the region;

(B) An evaluation of current and anticipated subsistence needs for fish and wildlife populations from the public lands within the region;

(C) A recommended strategy for the management of fish and wildlife populations within the region to accommodate such subsistence uses and needs related to the public lands; and

(D) Recommendations concerning policies, standards, guidelines, and regulations to implement the strategy;

(vii) Appoint members to each Subsistence Resource Commission within their region in accordance with the requirements of Section 808 of ANILCA;

(viii) Make recommendations on determinations of customary and traditional use of subsistence resources;

(ix) Make recommendations on determinations of rural status;

(x) Make recommendations regarding the allocation of subsistence uses among rural Alaska residents pursuant to § 100.17;

(xi) Develop proposals pertaining to the subsistence taking and use of fish and wildlife under the regulations in this part, and review and evaluate such proposals submitted by other sources;

(xii) Provide recommendations on the establishment and membership of Federal Advisory Committees.

(2) The Regional Councils shall:

(i) Operate in conformance with the provisions of FACA and comply with rules of operation established by the Board;

(ii) Perform other duties specified by the Board.

(3) The Regional Council recommendations to the Board should be supported by substantial evidence, be consistent with recognized principles of fish and wildlife conservation, and not

be detrimental to the satisfaction of subsistence needs.

[67 FR 30563, May 7, 2002, as amended at 68 FR 7704, Feb. 18, 2003]

§ 100.12 Local advisory committees.

(a) The Board shall establish such local Federal Advisory Committees within each region as necessary at such time that it is determined, after notice and hearing and consultation with the State, that the existing State fish and game advisory committees do not adequately provide advice to, and assist, the particular Regional Council in carrying out its function as set forth in § 100.11.

(b) Local Federal Advisory Committees, if established by the Board, shall operate in conformance with the provisions of the FACA, and comply with rules of operation established by the Board.

§ 100.13 Board/agency relationships.

(a) *General.* (1) The Board, in making decisions or recommendations, shall consider and ensure compliance with specific statutory requirements regarding the management of resources on public lands, recognizing that the management policies applicable to some public lands may entail methods of resource and habitat management and protection different from methods appropriate for other public lands.

(2) The Board shall issue regulations for subsistence taking of fish and wildlife on public lands. The Board is the final administrative authority on the promulgation of subparts C and D regulations relating to the subsistence taking of fish and wildlife on public lands.

(3) Nothing in the regulations in this part shall enlarge or diminish the authority of any agency to issue regulations necessary for the proper management of public lands under their jurisdiction in accordance with ANILCA and other existing laws.

(b) Section 808 of ANILCA establishes National Park and Park Monument Subsistence Resource Commissions. Nothing in the regulations in this part affects the duties or authorities of these commissions.

§ 100.14

§ 100.14 Relationship to State procedures and regulations.

(a) State fish and game regulations apply to public lands and such laws are hereby adopted and made a part of the regulations in this part to the extent they are not inconsistent with, or superseded by, the regulations in this part.

(b) The Board may close public lands to hunting, trapping, or fishing, or take actions to restrict the taking of fish and wildlife when necessary to conserve healthy populations of fish and wildlife, continue subsistence uses of such populations, or pursuant to other applicable Federal law. The Board may review and adopt State openings, closures, or restrictions which serve to achieve the objectives of the regulations in this part.

(c) The Board may enter into agreements with the State in order to coordinate respective management responsibilities.

(d) Petition for repeal of subsistence rules and regulations. (1) The State of Alaska may petition the Secretaries for repeal of the subsistence rules and regulations in this part when the State has enacted and implemented subsistence management and use laws which:

(i) Are consistent with sections 803, 804, and 805 of ANILCA; and

(ii) Provide for the subsistence definition, preference, and participation specified in sections 803, 804, and 805 of ANILCA.

(2) The State's petition shall:

(i) Be submitted to the Secretary of the Interior, U.S. Department of the Interior, Washington, D.C. 20240, and the Secretary of Agriculture, U.S. Department of Agriculture, Washington, D.C. 20240;

(ii) Include the entire text of applicable State legislation indicating compliance with sections 803, 804, and 805 of ANILCA; and

(iii) Set forth all data and arguments available to the State in support of legislative compliance with sections 803, 804, and 805 of ANILCA.

(3) If the Secretaries find that the State's petition contains adequate justification, a rulemaking proceeding for repeal of the regulations in this part will be initiated. If the Secretaries find that the State's petition does not con-

50 CFR Ch. I (10-1-04 Edition)

tain adequate justification, the petition will be denied by letter or other notice, with a statement of the ground for denial.

§ 100.15 Rural determination process.

(a) The Board shall determine if an area or community in Alaska is rural. In determining whether a specific area of Alaska is rural, the Board shall use the following guidelines:

(1) A community or area with a population of 2,500 or less shall be deemed to be rural unless such a community or area possesses significant characteristics of a non-rural nature, or is considered to be socially and economically a part of an urbanized area.

(2) Communities or areas with populations above 2,500 but not more than 7,000 will be determined to be rural or non-rural.

(3) A community with a population of more than 7,000 shall be presumed non-rural, unless such a community or area possesses significant characteristics of a rural nature.

(4) Population data from the most recent census conducted by the United States Bureau of Census as updated by the Alaska Department of Labor shall be utilized in this process.

(5) Community or area characteristics shall be considered in evaluating a community's rural or non-rural status. The characteristics may include, but are not limited to:

(i) Use of fish and wildlife;

(ii) Development and diversity of the economy;

(iii) Community infrastructure;

(iv) Transportation; and

(v) Educational institutions.

(6) Communities or areas which are economically, socially, and communally integrated shall be considered in the aggregate.

(b) The Board shall periodically review rural determinations. Rural determinations shall be reviewed on a 10-year cycle, commencing with the publication of the year 2000 U.S. census. Rural determinations may be reviewed out-of-cycle in special circumstances. Once the Board makes a determination that a community has changed from rural to non-rural, a waiting period of 5 years shall be required before the

U.S. Fish and Wildlife Serv., Interior

§ 100.18

non-rural determination becomes effective.

(c) Current determinations are listed at § 100.23.

§ 100.16 Customary and traditional use determination process.

(a) The Board shall determine which fish stocks and wildlife populations have been customarily and traditionally used for subsistence. These determinations shall identify the specific community's or area's use of specific fish stocks and wildlife populations. For areas managed by the National Park Service, where subsistence uses are allowed, the determinations may be made on an individual basis.

(b) A community or area shall generally exhibit the following factors, which exemplify customary and traditional use. The Board shall make customary and traditional use determinations based on application of the following factors:

(1) A long-term consistent pattern of use, excluding interruptions beyond the control of the community or area;

(2) A pattern of use recurring in specific seasons for many years;

(3) A pattern of use consisting of methods and means of harvest which are characterized by efficiency and economy of effort and cost, conditioned by local characteristics;

(4) The consistent harvest and use of fish or wildlife as related to past methods and means of taking; near, or reasonably accessible from, the community or area;

(5) A means of handling, preparing, preserving, and storing fish or wildlife which has been traditionally used by past generations, including consideration of alteration of past practices due to recent technological advances, where appropriate;

(6) A pattern of use which includes the handing down of knowledge of fishing and hunting skills, values, and lore from generation to generation;

(7) A pattern of use in which the harvest is shared or distributed within a definable community of persons; and

(8) A pattern of use which relates to reliance upon a wide diversity of fish and wildlife resources of the area and which provides substantial cultural,

economic, social, and nutritional elements to the community or area.

(c) The Board shall take into consideration the reports and recommendations of any appropriate Regional Council regarding customary and traditional uses of subsistence resources.

(d) Current determinations are listed in § 100.24.

§ 100.17 Determining priorities for subsistence uses among rural Alaska residents.

(a) Whenever it is necessary to restrict the subsistence taking of fish and wildlife on public lands in order to protect the continued viability of such populations, or to continue subsistence uses, the Board shall establish a priority among the rural Alaska residents after considering any recommendation submitted by an appropriate Regional Council.

(b) The priority shall be implemented through appropriate limitations based on the application of the following criteria to each area, community, or individual determined to have customary and traditional use, as necessary:

(1) Customary and direct dependence upon the populations as the mainstay of livelihood;

(2) Local residency; and

(3) The availability of alternative resources.

(c) If allocation on an area or community basis is not achievable, then the Board shall allocate subsistence opportunity on an individual basis through application of the criteria in paragraphs (b)(1) through (3) of this section.

(d) In addressing a situation where prioritized allocation becomes necessary, the Board shall solicit recommendations from the Regional Council in the area affected.

§ 100.18 Regulation adoption process.

(a) Proposals for changes to the Federal subsistence regulations in subparts C or D of this part shall be accepted by the Board according to a published schedule. The Board may establish a rotating schedule for accepting proposals on various sections of subpart C or subpart D regulations over a period of years. The Board shall develop and publish proposed regulations

§ 100.19

50 CFR Ch. I (10–1–04 Edition)

in the FEDERAL REGISTER and publish notice in local newspapers. Comments on the proposed regulations in the form of proposals shall be distributed for public review.

(1) Proposals shall be made available for at least a thirty (30) day review by the Regional Councils. Regional Councils shall forward their recommendations on proposals to the Board. Such proposals with recommendations may be submitted in the time period as specified by the Board or as a part of the Regional Council's annual report described in §100.11, whichever is earlier.

(2) The Board shall publish notice throughout Alaska of the availability of proposals received.

(3) The public shall have at least thirty (30) days to review and comment on proposals.

(4) After the comment period the Board shall meet to receive public testimony and consider the proposals. The Board shall consider traditional use patterns when establishing harvest levels and seasons, and methods and means. The Board may choose not to follow any recommendation which the Board determines is not supported by substantial evidence, violates recognized principles of fish and wildlife conservation, or would be detrimental to the satisfaction of subsistence needs. If a recommendation approved by a Regional Council is not adopted by the Board, the Board shall set forth the factual basis and the reasons for its decision in writing to the Regional Council.

(5) Following consideration of the proposals the Board shall publish final regulations pertaining to subparts C and D of this part in the FEDERAL REGISTER.

(b) Proposals for changes to subparts A and B of this part shall be accepted by the Secretary of the Interior in accordance with 43 CFR part 14.

§ 100.19 Special actions.

(a) The Board may restrict, close, or reopen the taking of fish and wildlife for non-subsistence uses on public lands when necessary to assure the continued viability of a particular fish or wildlife population, to continue subsistence uses of a fish or wildlife popu-

lation, or for reasons of public safety or administration.

(b) The Board may open, close, or restrict subsistence uses of a particular fish or wildlife population on public lands to assure the continued viability of a fish or wildlife population, to continue subsistence uses of a fish or wildlife population, or for reasons of public safety or administration.

(c) The Board will accept a request for a change in seasons, methods and means, harvest limits and/or restrictions on harvest under this §100.19 only if there are extenuating circumstances necessitating a regulatory change before the next annual subpart D proposal cycle. Extenuating circumstances include unusual and significant changes in resource abundance or unusual conditions affecting harvest opportunities that could not reasonably have been anticipated and that potentially could have significant adverse effects on the health of fish and wildlife populations or subsistence uses. Requests for Special Action that do not meet these conditions will be rejected; however, a rejected Special Action request will be deferred, if appropriate, to the next annual regulatory proposal cycle for consideration, after coordination with the submitter. In general, changes to Customary and Traditional Use Determinations will only be considered through the annual subpart C proposal cycle.

(d) In an emergency situation, the Board may immediately open, close, liberalize, or restrict subsistence uses of fish and wildlife on public lands, or close or restrict non-subsistence uses of fish and wildlife on public lands, if necessary to assure the continued viability of a fish or wildlife population, to continue subsistence uses of fish or wildlife, or for public safety reasons. Prior to implementing an emergency action, the Board shall consult with the State. The emergency action shall be effective when directed by the Board, may not exceed 60 days, and may not be extended unless it is determined by the Board, after notice and public hearing, that such action should be extended. The Board shall, in a timely manner, provide notice via radio announcement or personal contact of the emergency action and shall

publish notice and reasons justifying the emergency action in newspapers of any area affected, and in the FEDERAL REGISTER thereafter.

(e) After consultation with the State, the appropriate Regional Advisory Council(s), and adequate notice and public hearing, the Board may make or direct a temporary change to close, open, or adjust the seasons, to modify the harvest limits, or to modify the methods and means of harvest for subsistence uses of fish and wildlife populations on public lands. An affected rural resident, community, Regional Council, or administrative agency may request a temporary change in seasons, harvest limits, or methods or means of harvest. In addition, a temporary change may be made only after the Board determines that the proposed temporary change will not interfere with the conservation of healthy fish and wildlife populations, will not be detrimental to the long-term subsistence use of fish or wildlife resources, and is not an unnecessary restriction on non-subsistence users. The decision of the Board shall be the final administrative action. The temporary change shall be effective when directed by the Board following notice in the affected area(s). This notice may include publication in newspapers or announcement on local radio stations. The Board shall publish notice and reasons justifying the temporary action in the FEDERAL REGISTER thereafter. The length of any temporary change shall be confined to the minimum time period or harvest limit determined by the Board to be necessary to satisfy subsistence uses. A temporary opening or closure will not extend beyond the regulatory year for which it is promulgated.

(f) Regulations authorizing any individual agency to direct temporary or emergency closures on public lands managed by the agency remain unaffected by the regulations in this part, which authorize the Board to make or direct restrictions, closures, or temporary changes for subsistence uses on public lands.

(g) You may not take fish and wildlife in violation of a restriction, closure, opening, or temporary change authorized by the Board.

§ 100.20 Request for reconsideration.

(a) Regulations in subparts C and D of this part published in the FEDERAL REGISTER are subject to requests for reconsideration.

(b) Any aggrieved person may file a request for reconsideration with the Board.

(c) To file a request for reconsideration, you must notify the Board in writing within sixty (60) days of the effective date or date of publication of the notice, whichever is earlier, for which reconsideration is requested.

(d) It is your responsibility to provide the Board with sufficient narrative evidence and argument to show why the action by the Board should be reconsidered. The Board will accept a request for reconsideration only if it is based upon information not previously considered by the Board, demonstrates that the existing information used by the Board is incorrect, or demonstrates that the Board's interpretation of information, applicable law, or regulation is in error or contrary to existing law. You must include the following information in your request for reconsideration:

- (1) Your name, and mailing address;
- (2) The action which you request be reconsidered and the date of FEDERAL REGISTER publication of that action;
- (3) A detailed statement of how you are adversely affected by the action;
- (4) A detailed statement of the facts of the dispute, the issues raised by the request, and specific references to any law, regulation, or policy that you believe to be violated and your reason for such allegation;
- (5) A statement of how you would like the action changed.

(e) Upon receipt of a request for reconsideration, the Board shall transmit a copy of such request to any appropriate Regional Council and the Alaska Department of Fish and Game (ADFG) for review and recommendation. The Board shall consider any Regional Council and ADFG recommendations in making a final decision.

(f) If the request is justified, the Board shall implement a final decision on a request for reconsideration after compliance with 5 U.S.C. 551-559 (APA).

§ 100.21

(g) If the request is denied, the decision of the Board represents the final administrative action.

§ 100.24 Customary and traditional use determinations.

(a) The Federal Subsistence Board has determined that rural Alaska residents of the listed communities, areas, and individuals have customary and traditional use of the specified species on Federal public land in the specified areas. Persons granted individual customary and traditional use determinations will be notified in writing by the Board. The Fish & Wildlife Service and the local NPS Superintendent will maintain the list of individuals having customary and traditional use on National Parks and Monuments. A copy of the list is available upon request. When there is a determination for specific communities or areas of residence in a Unit, all other communities not listed for that species in that Unit have no Federal subsistence priority for that species in that Unit. If no determination has been made for a species in a Unit, all rural Alaska residents are eligible to harvest fish or wildlife under this part.

(1) *Wildlife determinations.* The rural Alaska residents of the listed communities and areas have a customary and traditional use of the specified species on Federal public lands within the listed areas:

Residents of the City of Angoon and along the western shore of Admiralty Island north of the latitude of Sand Island, south of the latitude of Thayer Creek, and west of 134°30' West longitude, including Killisnoo Island.
District 14—Sections 14-B and 14-C	Salmon, Dolly Varden, trout, smelt, and eulachon.	Residents of the City of Hoonah and in Chichagof Island drainages on the eastern shore of Port Frederick from Gartina Creek to Point Sophia.
Remainder of the Southeastern Alaska Area	Salmon, Dolly Varden, trout, smelt, and eulachon.	Residents of Southeastern Alaska and Yakutat Areas.

(3) *Shellfish determinations.* The following communities and areas have been found to have a positive customary and traditional use determination in the listed area for the indicated species:

Area	Species	Determination
BERING SEA AREA	All shellfish	Residents of the Bering Sea Area.
ALASKA PENINSULA-ALEUTIAN ISLANDS AREA.	Shrimp, Dungeness, king, and Tanner crab.	Residents of the Alaska Peninsula-Aleutian Islands Area.
KODIAK AREA	Shrimp, Dungeness, and Tanner crab.	Residents of the Kodiak Area.
Kodiak Area, except for the Semidi Island, the North Mainland, and the South Mainland Sections.	King crab	Residents of the Kodiak Island Borough except those residents on the Kodiak Coast Guard base.
COOK INLET AREA Federal waters in the Tuxedni Bay Area within the boundaries of Lake Clark National Park & Preserve or Alaska Maritime NWR.	Shellfish	Residents of Tuxedni Bay, Chisik Island, and Tyonek.
PRINCE WILLIAM SOUND AREA	Shrimp, clams, Dungeness, king, and Tanner crab.	Residents of the Prince William Sound Area.
SOUTHEASTERN ALASKA—YAKUTAT AREA		
Section 1-E south of the latitude of Grant Island light.	Shellfish, except shrimp, king crab, and Tanner crab.	Residents of the Southeast Area.
Section 1-F north of the latitude of the northernmost tip of Mary Island, except waters of Boca de Quadra.	Shellfish, except shrimp, king crab, and Tanner crab.	Residents of the Southeast Area.
Section 3-A and 3-B	Shellfish, except shrimp, king crab, and Tanner crab.	Residents of the Southeast Area.
District 13	Dungeness crab, shrimp, abalone, sea cucumbers, gum boots, cockles, and clams, except geoducks.	Residents of the Southeast Area.

Subpart D—Subsistence Taking of Fish and Wildlife

§ 100.25 Subsistence taking of fish, wildlife, and shellfish: general regulations.

(a) *Definitions.* The following definitions shall apply to all regulations contained in this part:

Abalone iron means a flat device which is used for taking abalone and which is more than 1 inch (24 mm) in width and less than 24 inches (610 mm) in length, with all prying edges rounded and smooth.

ADF&G means the Alaska Department of Fish and Game.

Airborne means transported by aircraft.

Aircraft means any kind of airplane, glider, or other device used to transport people or equipment through the air, excluding helicopters.

Airport means an airport listed in the Federal Aviation Administration, Alaska Airman's Guide and chart supplement.

Anchor means a device used to hold a fishing vessel or net in a fixed position relative to the beach; this includes using part of the seine or lead, a ship's anchor, or being secured to another vessel or net that is anchored.

Animal means those species with a vertebral column (backbone).

Antler means one or more solid, horn-like appendages protruding from the head of a caribou, deer, elk, or moose.

Antlered means any caribou, deer, elk, or moose having at least one visible antler.

Antlerless means any caribou, deer, elk, or moose not having visible antlers attached to the skull.

Bait means any material excluding a scent lure that is placed to attract an animal by its sense of smell or taste; however, those parts of legally taken animals that are not required to be salvaged and which are left at the kill site are not considered bait.

Beach seine means a floating net which is designed to surround fish and is set from and hauled to the beach.

Bear means black bear, or brown or grizzly bear.

Bow means a longbow, recurve bow, or compound bow, excluding a crossbow, or any bow equipped with a mechanical device that holds arrows at full draw.

Broadhead means an arrowhead that is not barbed and has two or more steel cutting edges having a minimum cutting diameter of not less than seven-eighths inch.

Brow tine means a tine on the front portion of a moose antler, typically projecting forward from the base of the antler toward the nose.

Buck means any male deer.

Bull means any male moose, caribou, elk, or musk oxen.

Cast net means a circular net with a mesh size of no more than ½ inches and weights attached to the perimeter which, when thrown, surrounds the fish and closes at the bottom when retrieved.

Char means the following species: Arctic char (*Salvelinus alpinus*); lake trout (*Salvelinus namaycush*); brook trout (*Salvelinus fontinalis*), and Dolly Varden (*Salvelinus malma*).

Closed season means the time when fish, wildlife, or shellfish may not be taken.

Crab means the following species: red king crab (*Paralithodes camshatica*); blue king crab (*Paralithodes platypus*); brown king crab (*Lithodes aequispina*); *Lithodes couesi*; all species of tanner or snow crab (*Chionoecetes* spp.); and Dungeness crab (*Cancer magister*).

Cub bear means a brown or grizzly bear in its first or second year of life, or a black bear (including cinnamon and blue phases) in its first year of life.

Depth of net means the perpendicular distance between cork line and lead line expressed as either linear units of measure or as a number of meshes, including all of the web of which the net is composed.

Designated hunter or fisherman means a Federally qualified hunter or fisherman who may take all or a portion of another Federally qualified hunter's or

fisherman's harvest limit(s) only under situations approved by the Board.

Dip net means a bag-shaped net supported on all sides by a rigid frame; the maximum straight-line distance between any two points on the net frame, as measured through the net opening, may not exceed 5 feet; the depth of the bag must be at least one-half of the greatest straight-line distance, as measured through the net opening; no portion of the bag may be constructed of webbing that exceeds a stretched measurement of 4.5 inches; the frame must be attached to a single rigid handle and be operated by hand.

Diving gear means any type of hard hat or skin diving equipment, including SCUBA equipment; a tethered, umbilical, surface-supplied unit; or snorkel.

Drainage means all of the lands and waters comprising a watershed, including tributary rivers, streams, sloughs, ponds, and lakes, which contribute to the water supply of the watershed.

Drift gillnet means a drifting gillnet that has not been intentionally staked, anchored, or otherwise fixed in one place.

Edible meat means the breast meat of ptarmigan and grouse, and, those parts of caribou, deer, elk, mountain goat, moose, musk oxen, and Dall sheep that are typically used for human consumption, which are: The meat of the ribs, neck, brisket, front quarters as far as the distal (bottom) joint of the radius-ulna (knee), hindquarters as far as the distal joint (bottom) of the tibia-fibula (hock) and that portion of the animal between the front and hindquarters; however, *edible meat* of species listed in this definition does not include: meat of the head, meat that has been damaged and made inedible by the method of taking, bones, sinew, and incidental meat reasonably lost as a result of boning or close trimming of the bones, or viscera. For black bear, brown and grizzly bear, "edible meat" means the meat of the front quarter and hindquarters and meat along the backbone (backstrap).

Federally-qualified subsistence user means a rural Alaska resident qualified to harvest fish or wildlife on Federal public lands in accordance with the

Federal Subsistence Management Regulations in this part.

Field means an area outside of established year-round dwellings, businesses, or other developments usually associated with a city, town, or village; *field* does not include permanent hotels or roadhouses on the State road system or at State or Federally maintained airports.

Fifty-inch (50-inch) moose means a bull moose with an antler spread of 50 inches or more.

Fish wheel means a fixed, rotating device, with no more than four baskets on a single axle, for catching fish, which is driven by river current or other means.

Freshwater of streams and rivers means the line at which freshwater is separated from saltwater at the mouth of streams and rivers by a line drawn headland to headland across the mouth as the waters flow into the sea.

Full curl horn means the horn of a Dall sheep ram; the tip of which has grown through 360 degrees of a circle described by the outer surface of the horn, as viewed from the side, or that both horns are broken, or that the sheep is at least 8 years of age as determined by horn growth annuli.

Fur means a mammal's hairy coating with or without the skin attached. It does not include claws, hooves, teeth, horns, or antlers.

Furbearer means a beaver, coyote, arctic fox, red fox, lynx, marten, mink, weasel, muskrat, river (land) otter, red squirrel, flying squirrel, ground squirrel, marmot, wolf, or wolverine.

Fyke net means a fixed, funneling (fyke) device used to entrap fish.

Gear means any type of fishing apparatus.

Gillnet means a net primarily designed to catch fish by entanglement in a mesh that consists of a single sheet of webbing which hangs between cork line and lead line, and which is fished from the surface of the water.

Grappling hook means a hooked device with flukes or claws, which is attached to a line and operated by hand.

Groundfish or *bottomfish* means any marine fish except halibut, osmerids, herring and salmonids.

Grouse collectively refers to all species found in Alaska, including spruce

grouse, ruffed grouse, blue grouse, and sharp-tailed grouse.

Hand purse seine means a floating net which is designed to surround fish and which can be closed at the bottom by pursing the lead line; pursing may only be done by hand power, and a free-running line through one or more rings attached to the lead line is not allowed.

Handicraft means a finished product in which the shape and appearance of the natural material has been substantially changed by the skillful use of hands, such as sewing, carving, etching, scrimshawing, painting, or other means, and which has substantially greater monetary and aesthetic value than the unaltered natural material alone.

Handline means a hand-held and operated line, with one or more hooks attached.

Hare or hares collectively refers to all species of hares (commonly called rabbits) in Alaska and includes snowshoe hare and tundra hare.

Harvest limit means the number of any one species permitted to be taken by any one person or designated group, per specified time period, in a Unit or portion of a Unit in which the taking occurs even if part or all of the harvest is preserved. A fish, when landed and killed by means of rod and reel becomes part of the harvest limit of the person originally hooking it.

Herring pound means an enclosure used primarily to contain live herring over extended periods of time.

Highway means the drivable surface of any constructed road.

Household means that group of people residing in the same residence.

Hung measure means the maximum length of the cork line when measured wet or dry with traction applied at one end only.

Hunting means the taking of wildlife within established hunting seasons with archery equipment or firearms, and as authorized by a required hunting license.

Hydraulic clam digger means a device using water or a combination of air and water used to harvest clams.

Jigging gear means a line or lines with lures or baited hooks, drawn through the water by hand, and which are operated during periods of ice cover from

holes cut in the ice, or from shore ice and which are drawn through the water by hand.

Lead means either a length of net employed for guiding fish into a seine, set gillnet, or other length of net, or a length of fencing employed for guiding fish into a fish wheel, fyke net, or dip net.

Legal limit of fishing gear means the maximum aggregate of a single type of fishing gear permitted to be used by one individual or boat, or combination of boats in any particular regulatory area, district, or section.

Long line means either a stationary, buoyed, or anchored line, or a floating, free-drifting line with lures or baited hooks attached.

Marmot collectively refers to all species of marmot that occur in Alaska including the hoary marmot, Alaska marmot, and the woodchuck.

Mechanical clam digger means a mechanical device used or capable of being used for the taking of clams.

Mechanical jigging machine means a mechanical device with line and hooks used to jig for halibut and bottomfish, but does not include hand gurdies or rods with reels.

Mile means a nautical mile when used in reference to marine waters or a statute mile when used in reference to fresh water.

Motorized vehicle means a motor-driven land, air, or water conveyance.

Open season means the time when wildlife may be taken by hunting or trapping; an open season includes the first and last days of the prescribed season period.

Otter means river or land otter only, excluding sea otter.

Permit hunt means a hunt for which State or Federal permits are issued by registration or other means.

Poison means any substance that is toxic or poisonous upon contact or ingestion.

Possession means having direct physical control of wildlife at a given time or having both the power and intention to exercise dominion or control of wildlife either directly or through another person or persons.

Possession limit means the maximum number of fish, grouse, or ptarmigan a person or designated group may have

in possession if they have not been canned, salted, frozen, smoked, dried, or otherwise preserved so as to be fit for human consumption after a 15-day period.

Pot means a portable structure designed and constructed to capture and retain live fish and shellfish in the water.

Ptarmigan collectively refers to all species found in Alaska, including white-tailed ptarmigan, rock ptarmigan, and willow ptarmigan.

Purse seine means a floating net which is designed to surround fish and which can be closed at the bottom by means of a free-running line through one or more rings attached to the lead line.

Ram means a male Dall sheep.

Registration permit means a permit that authorizes hunting and is issued to a person who agrees to the specified hunting conditions. Hunting permitted by a registration permit begins on an announced date and continues throughout the open season, or until the season is closed by Board action. Registration permits are issued in the order applications are received and/or are based on priorities as determined by 50 CFR 100.17 and 36 CFR 242.17.

Ring net means a bag-shaped net suspended between no more than two frames; the bottom frame may not be larger in perimeter than the top frame; the gear must be nonrigid and collapsible so that free movement of fish or shellfish across the top of the net is not prohibited when the net is employed.

Rockfish means all species of the genus *Sebastes*.

Rod and reel means either a device upon which a line is stored on a fixed or revolving spool and is deployed through guides mounted on a flexible pole, or a line that is attached to a pole. In either case, bait or an artificial fly or lure is used as terminal tackle. This definition does not include the use of rod and reel gear for snagging.

Salmon means the following species: pink salmon (*Oncorhynchus gorbuscha*); sockeye salmon (*Oncorhynchus nerka*); chinook salmon (*Oncorhynchus tshawytscha*); coho salmon (*Oncorhynchus kisutch*); and chum salmon (*Oncorhynchus keta*).

Salmon stream means any stream used by salmon for spawning, rearing, or for traveling to a spawning or rearing area.

Salvage means to transport the edible meat, skull, or hide, as required by regulation, of a regulated fish, wildlife, or shellfish to the location where the edible meat will be consumed by humans or processed for human consumption in a manner which saves or prevents the edible meat from waste, and preserves the skull or hide for human use.

Scallop dredge means a dredge-like device designed specifically for and capable of taking scallops by being towed along the ocean floor.

Sea urchin rake means a hand-held implement, no longer than 4 feet, equipped with projecting prongs used to gather sea urchins.

Sealing means placing a mark or tag on a portion of a harvested animal by an authorized representative of the ADF&G; *sealing* includes collecting and recording information about the conditions under which the animal was harvested, and measurements of the specimen submitted for sealing or surrendering a specific portion of the animal for biological information.

Set gillnet means a gillnet that has been intentionally set, staked, anchored, or otherwise fixed.

Seven-eighths curl horn means the horn of a male Dall sheep, the tip of which has grown through seven-eighths (315 degrees) of a circle, described by the outer surface of the horn, as viewed from the side, or with both horns broken.

Shovel means a hand-operated implement for digging clams.

Skin, hide, or pelt means any tanned or untanned external covering of an animal's body. However, for bear, the skin, hide, or pelt means the entire external covering with claws attached.

Spear means a shaft with a sharp point or fork-like implement attached to one end which is used to thrust through the water to impale or retrieve fish and which is operated by hand.

Spike-fork moose means a bull moose with only one or two tines on either antler; male calves are not spike-fork bulls.

Stretched measure means the average length of any series of 10 consecutive

§ 100.25

50 CFR Ch. I (10–1–04 Edition)

meshes measured from inside the first knot and including the last knot when wet; the 10 meshes, when being measured, shall be an integral part of the net, as hung, and measured perpendicular to the selvages; measurements shall be made by means of a metal tape measure while the 10 meshes being measured are suspended vertically from a single peg or nail, under 5-pound weight.

Subsistence fishing permit means a subsistence harvest permit issued by the Alaska Department of Fish and Game or the Federal Subsistence Board.

Take or *Taking* means to fish, pursue, hunt, shoot, trap, net, capture, collect, kill, harm, or attempt to engage in any such conduct.

Tine or *antler point* refers to any point on an antler, the length of which is greater than its width and is at least one inch.

To operate fishing gear means any of the following: To deploy gear in the water; to remove gear from the water; to remove fish or shellfish from the gear during an open season or period; or to possess a gillnet containing fish during an open fishing period, except that a gillnet which is completely clear of the water is not considered to be operating for the purposes of minimum distance requirement.

Transportation means to ship, convey, carry, or transport by any means whatever and deliver or receive for such shipment, conveyance, carriage, or transportation.

Trapping means the taking of furbearers within established trapping seasons and with a required trapping license.

Trawl means a bag-shaped net towed through the water to capture fish or shellfish, and includes beam, otter, or pelagic trawl.

Troll gear means a power gurdy troll gear consisting of a line or lines with lures or baited hooks which are drawn through the water by a power gurdy; hand troll gear consisting of a line or lines with lures or baited hooks which are drawn through the water from a vessel by hand trolling, strip fishing, or other types of trolling, and which are retrieved by hand power or hand-powered crank and not by any type of electrical, hydraulic, mechanical, or other

assisting device or attachment; or dinglebar troll gear consisting of one or more lines, retrieved and set with a troll gurdy or hand troll gurdy, with a terminally attached weight from which one or more leaders with one or more lures or baited hooks are pulled through the water while a vessel is making way.

Trout means the following species: cutthroat trout (*Oncorhynchus clarki*) and rainbow/steelhead trout (*Oncorhynchus mykiss*).

Unclassified wildlife or unclassified species means all species of animals not otherwise classified by the definitions in this paragraph (a), or regulated under other Federal law as listed in paragraph (i) of this section.

Ungulate means any species of hoofed mammal, including deer, caribou, elk, moose, mountain goat, Dall sheep, and musk oxen.

Unit means one of the 26 geographical areas in the State of Alaska known as Game Management Units, or GMU, and collectively listed in this section as Units.

Wildlife means any hare (rabbit), ptarmigan, grouse, ungulate, bear, furbearer, or unclassified species and includes any part, product, egg, or offspring thereof, or carcass or part thereof.

(b) Taking fish, wildlife, or shellfish for subsistence uses by a prohibited method is a violation of this part. Seasons are closed unless opened by Federal regulation. Hunting, trapping, or fishing during a closed season or in an area closed by this part is prohibited. You may not take for subsistence fish, wildlife, or shellfish outside established Unit or Area seasons, or in excess of the established Unit or Area harvest limits, unless otherwise provided for by the Board. You may take fish, wildlife, or shellfish under State regulations on public lands, except as otherwise restricted at §§ 100.26 through 100.28. Unit/Area-specific restrictions or allowances for subsistence taking of fish, wildlife, or shellfish are identified at §§ 100.26 through 100.28.

(c) *Harvest limits*. (1) Harvest limits authorized by this section and harvest limits established in State regulations may not be accumulated.

(2) Fish, wildlife, or shellfish taken by a designated individual for another person pursuant to §100.10(d)(5)(ii) counts toward the individual harvest limit of the person for whom the fish, wildlife, or shellfish is taken.

(3) A harvest limit applies to the number of fish, wildlife, or shellfish that can be taken during a regulatory year; however, harvest limits for grouse, ptarmigan, and caribou (in some Units) are regulated by the number that may be taken per day. Harvest limits of grouse and ptarmigan are also regulated by the number that can be held in possession.

(4) Unless otherwise provided, any person who gives or receives fish, wildlife, or shellfish shall furnish, upon a request made by a Federal or State agent, a signed statement describing the following: Names and addresses of persons who gave and received fish, wildlife, or shellfish; the time and place that the fish, wildlife, or shellfish was taken; and identification of species transferred. Where a qualified subsistence user has designated another qualified subsistence user to take fish, wildlife, or shellfish on his or her behalf in accordance with §100.10(d)(5)(ii), the permit shall be furnished in place of a signed statement.

(d) *Fishing by designated harvest permit.* (1) Any species of fish that may be taken by subsistence fishing under this part may be taken under a designated harvest permit.

(2) If you are a Federally-qualified subsistence user, you (beneficiary) may designate another Federally-qualified subsistence user to take fish on your behalf. The designated fisherman must obtain a designated harvest permit prior to attempting to harvest fish and must return a completed harvest report. The designated fisherman may fish for any number of beneficiaries but may have no more than two harvest limits in his/her possession at any one time.

(3) The designated fisherman must have in possession a valid designated fishing permit when taking, attempting to take, or transporting fish taken under this section, on behalf of a beneficiary.

(4) The designated fisherman may not fish with more than one legal limit of gear.

(5) You may not designate more than one person to take or attempt to take fish on your behalf at one time. You may not personally take or attempt to take fish at the same time that a designated fisherman is taking or attempting to take fish on your behalf.

(e) *Hunting by designated harvest permit.* In Units 1-8, 9(D), 10-16, or 18-26, if you are a Federally qualified subsistence user (recipient), you may designate another Federally qualified subsistence user to take deer, moose and caribou on your behalf unless you are a member of a community operating under a community harvest system or unless Unit specific regulations in Section 100.26 preclude or modify the use of the designated hunter system or allow the harvest of additional species by a designated hunter. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time, unless otherwise specified in unit-specific regulations in §100.26.

(f) A rural Alaska resident who has been designated to take fish, wildlife, or shellfish on behalf of another rural Alaska resident in accordance with §100.10(d)(5)(ii) shall promptly deliver the fish, wildlife, or shellfish to that rural Alaska resident and may not charge the recipient for his/her services in taking the fish, wildlife, or shellfish or claim for themselves the meat or any part of the harvested fish, wildlife, or shellfish.

(g) [Reserved]

(h) *Permits.* If a subsistence fishing or hunting permit is required by this part, the following permit conditions apply unless otherwise specified in this section:

(1) You may not take more fish, wildlife, or shellfish for subsistence use than the limits set out in the permit;

(2) You must obtain the permit prior to fishing or hunting;

(3) You must have the permit in your possession and readily available for inspection while fishing, hunting, or

§ 100.26

50 CFR Ch. I (10–1–04 Edition)

transporting subsistence-taken fish, wildlife, or shellfish;

(4) If specified on the permit, you shall keep accurate daily records of the harvest, showing the number of fish, wildlife, or shellfish taken by species, location and date of harvest, and other such information as may be required for management or conservation purposes; and

(5) If the return of harvest information necessary for management and conservation purposes is required by a permit and you fail to comply with such reporting requirements, you are ineligible to receive a subsistence permit for that activity during the following calendar year, unless you demonstrate that failure to report was due to loss in the mail, accident, sickness, or other unavoidable circumstances.

(i) You may not possess, transport, give, receive, or barter fish, wildlife, or shellfish that was taken in violation of Federal or State statutes or a regulation promulgated hereunder.

(j) *Utilization of fish, wildlife, or shellfish.* (1) You may not use wildlife as food for a dog or furbearer, or as bait, except as allowed for in § 100.26, § 100.27, or § 100.28, or except for the following:

(i) The hide, skin, viscera, head, or bones of wildlife;

(ii) The skinned carcass of a furbearer;

(iii) Squirrels, hares (rabbits), grouse, or ptarmigan; however, you may not use the breast meat of grouse and ptarmigan as animal food or bait;

(iv) Unclassified wildlife.

(2) If you take wildlife for subsistence, you must salvage the following parts for human use:

(i) The hide of a wolf, wolverine, coyote, fox, lynx, marten, mink, weasel, or otter;

(ii) The hide and edible meat of a brown bear, except that the hide of brown bears taken in Units 5, 9(B), 17, 18, portions of 19(A) and 19(B), 21(D), 22, 23, 24, and 26(A) need not be salvaged;

(iii) The hide and edible meat of a black bear;

(iv) The hide or meat of squirrels, hares (rabbits), marmots, beaver, muskrats, or unclassified wildlife.

(3) You must salvage the edible meat of ungulates, bear, grouse, and ptarmigan.

(4) You may not intentionally waste or destroy any subsistence-caught fish or shellfish; however, you may use for bait or other purposes whitefish, herring, and species for which bag limits, seasons, or other regulatory methods and means are not provided in this section, as well as the head, tail, fins, and viscera of legally-taken subsistence fish.

(5) Failure to salvage the edible meat may not be a violation if such failure is caused by circumstances beyond the control of a person, including theft of the harvested fish, wildlife, or shellfish, unanticipated weather conditions, or unavoidable loss to another animal.

(6) You may sell handicraft articles made from the fur or claws of a black bear.

(7) You may sell handicraft articles made from the fur or claws of a brown bear taken from Units 1–5, 9(A)–(C), 9(E), 12, 17, 20, and 25.

(8) You may sell the raw fur or tanned pelt with or without claws attached from legally harvested furbearers.

(k) The regulations found in this part do not apply to the subsistence taking and use of fish, wildlife, or shellfish regulated pursuant to the Fur Seal Act of 1966 (80 Stat. 1091, 16 U.S.C. 1187), the Endangered Species Act of 1973 (87 Stat. 884, 16 U.S.C. 1531–1543), the Marine Mammal Protection Act of 1972 (86 Stat. 1027; 16 U.S.C. 1361–1407), and the Migratory Bird Treaty Act (40 Stat. 755; 16 U.S.C. 703–711), or to any amendments to these Acts. The taking and use of fish, wildlife, or shellfish, covered by these Acts, will conform to the specific provisions contained in these Acts, as amended, and any implementing regulations.

(l) Rural residents, nonrural residents, and nonresidents not specifically prohibited by Federal regulations from fishing, hunting, or trapping on public lands in an area, may fish, hunt, or trap on public lands in accordance with the appropriate State regulations.

[69 FR 40185, July 1, 2004]

§ 100.26 Subsistence taking of wildlife.

(a) You may take wildlife for subsistence uses by any method, except as prohibited in this section or by other Federal statute. Taking wildlife for

subsistence uses by a prohibited method is a violation of this part. Seasons are closed unless opened by Federal regulation. Hunting or trapping during a closed season or in an area closed by this part is prohibited.

(b) Except for special provisions found at paragraphs (n)(1) through (26) of this section, the following methods and means of taking wildlife for subsistence uses are prohibited:

(1) Shooting from, on, or across a highway;

(2) Using any poison;

(3) Using a helicopter in any manner, including transportation of individuals, equipment, or wildlife; however, this prohibition does not apply to transportation of an individual, gear, or wildlife during an emergency rescue operation in a life-threatening situation;

(4) Taking wildlife from a motorized land or air vehicle, when that vehicle is in motion or from a motor-driven boat when the boat's progress from the motor's power has not ceased;

(5) Using a motorized vehicle to drive, herd, or molest wildlife;

(6) Using or being aided by use of a machine gun, set gun, or a shotgun larger than 10 gauge;

(7) Using a firearm other than a shotgun, muzzle-loaded rifle, rifle, or pistol using center-firing cartridges, for the taking of ungulates, bear, wolves, or wolverine, except that—

(i) An individual in possession of a valid trapping license may use a firearm that shoots rimfire cartridges to take wolves and wolverine;

(ii) Only a muzzle-loading rifle of .54-caliber or larger, or a .45-caliber muzzle-loading rifle with a 250-grain, or larger, elongated slug may be used to take brown bear, black bear, elk, moose, musk oxen, and mountain goat;

(8) Using or being aided by use of a pit, fire, artificial light, radio communication, artificial salt lick, explosive, barbed arrow, bomb, smoke, chemical, conventional steel trap with a jaw spread over 9 inches, or conibear style trap with a jaw spread over 11 inches;

(9) Using a snare, except that an individual in possession of a valid hunting license may use nets and snares to take unclassified wildlife, ptarmigan, grouse, or hares; and, individuals in

possession of a valid trapping license may use snares to take furbearers;

(10) Using a trap to take ungulates or bear;

(11) Using hooks to physically snag, impale, or otherwise take wildlife; however, hooks may be used as a trap drag;

(12) Using a crossbow to take ungulates, bear, wolf, or wolverine in any area restricted to hunting by bow and arrow only;

(13) Taking of ungulates, bear, wolf, or wolverine with a bow, unless the bow is capable of casting a $\frac{7}{8}$ inch wide broadhead-tipped arrow at least 175 yards horizontally, and the arrow and broadhead together weigh at least 1 ounce (437.5 grains);

(14) Using bait for taking ungulates, bear, wolf, or wolverine; except, you may use bait to take wolves and wolverine with a trapping license, and you may use bait to take black bears with a hunting license as authorized in Unit-specific regulations at paragraphs (n)(1) through (26) of this section. Baiting of black bears is subject to the following restrictions:

(i) Before establishing a black bear bait station, you must register the site with ADF&G;

(ii) When using bait, you must clearly mark the site with a sign reading "black bear bait station" that also displays your hunting license number and ADF&G-assigned number;

(iii) You may use only biodegradable materials for bait; you may use only the head, bones, viscera, or skin of legally harvested fish and wildlife for bait;

(iv) You may not use bait within $\frac{1}{4}$ mile of a publicly maintained road or trail;

(v) You may not use bait within 1 mile of a house or other permanent dwelling, or within 1 mile of a developed campground, or developed recreational facility;

(vi) When using bait, you must remove litter and equipment from the bait station site when done hunting;

(vii) You may not give or receive payment for the use of a bait station, including barter or exchange of goods;

(viii) You may not have more than two bait stations with bait present at any one time;

(15) Taking swimming ungulates, bears, wolves, or wolverine;

(16) Taking or assisting in the taking of ungulates, bear, wolves, wolverine, or other furbearers before 3:00 a.m. following the day in which airborne travel occurred (except for flights in regularly scheduled commercial aircraft); however, this restriction does not apply to subsistence taking of deer, the setting of snares or traps, or the removal of furbearers from traps or snares;

(17) Taking a bear cub or a sow accompanied by cub(s).

(c) Wildlife taken in defense of life or property is not a subsistence use; wildlife so taken is subject to State regulations.

(d) The following methods and means of trapping furbearers, for subsistence uses pursuant to the requirements of a trapping license are prohibited, in addition to the prohibitions listed at paragraph (b) of this section:

(1) Disturbing or destroying a den, except that you may disturb a muskrat pushup or feeding house in the course of trapping;

(2) Disturbing or destroying any beaver house;

(3) Taking beaver by any means other than a steel trap or snare, except that you may use firearms in certain Units with established seasons as identified in Unit-specific regulations found in this subpart;

(4) Taking otter with a steel trap having a jaw spread of less than 5 $\frac{7}{8}$ inches during any closed mink and marten season in the same Unit;

(5) Using a net, or fish trap (except a blackfish or fyke trap);

(6) Taking or assisting in the taking of furbearers by firearm before 3:00 a.m. on the day following the day on which airborne travel occurred; however, this does not apply to a trapper using a firearm to dispatch furbearers caught in a trap or snare.

(e) *Possession and transportation of wildlife.* (1) Except as specified in paragraph (e)(2) or (f)(1) of this section, or as otherwise provided, you may not take a species of wildlife in any unit, or portion of a unit, if your total take of that species already obtained anywhere in the State under Federal and

State regulations equals or exceeds the harvest limit in that unit.

(2) An animal taken under Federal or State regulations by any member of a community with an established community harvest limit for that species counts toward the community harvest limit for that species. Except for wildlife taken pursuant to § 100.10(d)(5)(iii) or as otherwise provided for by this Part, an animal taken as part of a community harvest limit counts toward every community member's harvest limit for that species taken under Federal or State of Alaska regulations.

(f) *Harvest limits.* (1) The harvest limit specified for a trapping season for a species and the harvest limit set for a hunting season for the same species are separate and distinct. This means that if you have taken a harvest limit for a particular species under a trapping season, you may take additional animals under the harvest limit specified for a hunting season or vice versa.

(2) A brown/grizzly bear taken in a Unit or portion of a Unit having a harvest limit of "one brown/grizzly bear per year" counts against a "one brown/grizzly bear every four regulatory years" harvest limit in other Units. You may not take more than one brown/grizzly bear in a regulatory year.

(3) The Assistant Regional Director for Subsistence Management, FWS, is authorized to open, close, or adjust Federal subsistence lynx trapping seasons and to set harvest and possession limits for lynx in Units 6, 7, 11, 12, 13, 14, 15, 16, 20(A), 20(B), 20(C) east of the Teklanika River, 20(D), and 20(E), with a maximum season of November 1–February 28. This delegation may be exercised only when it is necessary to conserve lynx populations or to continue subsistence uses, only within guidelines listed within the ADF&G Lynx Harvest Management Strategy, and only after staff analysis of the potential action, consultation with the appropriate Regional Council Chairs, and Interagency Staff Committee concurrence.

(g) *Evidence of sex and identity.* (1) If subsistence take of Dall sheep is restricted to a ram, you may not possess or transport a harvested sheep unless both horns accompany the animal.

(2) If the subsistence taking of an ungulate, except sheep, is restricted to one sex in the local area, you may not possess or transport the carcass of an animal taken in that area unless sufficient portions of the external sex organs remain attached to indicate conclusively the sex of the animal, except in Units 11, 13, 19, 21, and 24 where you may possess either sufficient portions of the external sex organs (still attached to a portion of the carcass) or the head (with or without antlers attached; however, the antler stumps must remain attached), to indicate the sex of the harvested moose; however, this paragraph (g)(2) does not apply to the carcass of an ungulate that has been butchered and placed in storage or otherwise prepared for consumption upon arrival at the location where it is to be consumed.

(3) If a moose harvest limit requires an antlered bull, an antler size, or configuration restriction, you may not possess or transport the moose carcass or its parts unless both antlers accompany the carcass or its parts. If you possess a set of antlers with less than the required number of brow tines on one antler, you must leave the antlers naturally attached to the unbroken, uncut skull plate; however, this paragraph (g)(3) does not apply to a moose carcass or its parts that have been butchered and placed in storage or otherwise prepared for consumption after arrival at the place where it is to be stored or consumed.

(h) You must leave all edible meat on the bones of the front quarters and hind quarters of caribou and moose harvested in Units 9(B), 17, 18, and 19(B) prior to October 1 until you remove the meat from the field or process it for human consumption. You must leave all edible meat on the bones of the front quarters, hind quarters, and ribs of moose harvested in Unit 21 prior to October 1 until you remove the meat from the field or process it for human consumption. You must leave all edible meat on the bones of the front quarters, hind quarters, and ribs of caribou and moose harvested in Unit 24 prior to October 1 until you remove the meat from the field or process it for human consumption. Meat of the front quarters, hind quarters, or ribs from a har-

vested moose or caribou may be processed for human consumption and consumed in the field; however, meat may not be removed from the bones for purposes of transport out of the field.

(i) If you take an animal that has been marked or tagged for scientific studies, you must, within a reasonable time, notify the ADF&G or the agency identified on the collar or marker, when and where the animal was taken. You also must retain any ear tag, collar, radio, tattoo, or other identification with the hide until it is sealed, if sealing is required; in all cases, you must return any identification equipment to the ADF&G or to an agency identified on such equipment.

(j) *Sealing of bear skins and skulls.* (1) Sealing requirements for bear shall apply to brown bears taken in all Units, except as specified in this paragraph, and black bears of all color phases taken in Units 1-7, 11-17, and 20.

(2) You may not possess or transport from Alaska the untanned skin or skull of a bear unless the skin and skull have been sealed by an authorized representative of ADF&G in accordance with State or Federal regulations, except that the skin and skull of a brown bear taken under a registration permit in Units 5, 9(B), 9(E), 17, 18, 19(A) and 19(B) downstream of and including the Aniak River drainage, 21(D), 22, 23, 24, and 26(A) need not be sealed unless removed from the area.

(3) You must keep a bear skin and skull together until a representative of the ADF&G has removed a rudimentary premolar tooth from the skull and sealed both the skull and the skin; however, this provision shall not apply to brown bears taken within Units 5, 9(B), 9(E), 17, 18, 19(A) and 19(B) downstream of and including the Aniak River drainage, 21(D), 22, 23, 24, and 26(A) which are not removed from the Unit.

(i) In areas where sealing is required by Federal regulations, you may not possess or transport the hide of a bear that does not have the penis sheath or vaginal orifice naturally attached to indicate conclusively the sex of the bear.

(ii) If the skin or skull of a bear taken in Units 9(B), 17, 18, and 19(A) and 19(B) downstream of and including

the Aniak River drainage is removed from the area, you must first have it sealed by an ADF&G representative in Bethel, Dillingham, or McGrath; at the time of sealing, the ADF&G representative shall remove and retain the skin of the skull and front claws of the bear.

(iii) If you remove the skin or skull of a bear taken in Units 21(D), 22, 23, 24, and 26(A) from the area or present it for commercial tanning within the area, you must first have it sealed by an ADF&G representative in Barrow, Galena, Nome, or Kotzebue; at the time of sealing, the ADF&G representative shall remove and retain the skin of the skull and front claws of the bear.

(iv) If you remove the skin or skull of a bear taken in Unit 5 from the area, you must first have it sealed by an ADF&G representative in Yakutat; at the time of sealing, the ADF&G representative shall remove and retain the skin of the skull and front claws of the bear.

(v) If you remove the skin or skull of a bear taken in Unit 9(E) from Unit 9, you must first have it sealed by an authorized sealing representative. At the time of sealing, the representative shall remove and retain the skin of the skull and front claws of the bear.

(4) You may not falsify any information required on the sealing certificate or temporary sealing form provided by the ADF&G in accordance with State regulations.

(k) *Sealing of beaver, lynx, marten, otter, wolf, and wolverine.* You may not possess or transport from Alaska the untanned skin of a marten taken in Units 1–5, 7, 13(E), and 14–16 or the untanned skin of a beaver, lynx, otter, wolf, or wolverine, whether taken inside or outside the State, unless the skin has been sealed by an authorized representative in accordance with State or Federal regulations. In Unit 18, you must obtain an ADF&G seal for beaver skins only if they are to be sold or commercially tanned.

(1) You must seal any wolf taken in Unit 2 on or before the 30th day after the date of taking.

(2) You must leave the radius and ulna of the left foreleg naturally attached to the hide of any wolf taken in Units 1–5 until the hide is sealed.

(l) If you take a species listed in paragraph (k) of this section but are unable to present the skin in person, you must complete and sign a temporary sealing form and ensure that the completed temporary sealing form and skin are presented to an authorized representative of ADF&G for sealing consistent with requirements listed in paragraph (k) of this section.

(m) You may take wildlife, outside of established season or harvest limits, for food in traditional religious ceremonies, that are part of a funerary or mortuary cycle, including memorial potlatches, under the following provisions:

(1) The harvest does not violate recognized principles of wildlife conservation and uses the methods and means allowable for the particular species published in the applicable Federal regulations. The appropriate Federal land manager will establish the number, species, sex, or location of harvest, if necessary, for conservation purposes. Other regulations relating to ceremonial harvest may be found in the unit-specific regulations in § _____.26(n).

(2) No permit or harvest ticket is required for harvesting under this section; however, the harvester must be a Federally qualified subsistence user with customary and traditional use in the area where the harvesting will occur.

(3) In Units 1–26 (except for Koyukon/Gwich'in potlatch ceremonies in Units 20(F), 21, 24, or 25):

(i) A tribal chief, village council president or the chief's or president's designee for the village in which the religious ceremony will be held, or a Federally qualified subsistence user outside of a village or tribal-organized ceremony, must notify the nearest Federal land manager that a wildlife harvest will take place. The notification must include the species, harvest location, and number of animals expected to be taken.

(ii) Immediately after the wildlife is taken, the tribal chief, village council president or designee, or other Federally qualified subsistence user must create a list of the successful hunters and maintain these records including the name of the decedent for whom the ceremony will be held. If requested,

this information must be available to an authorized representative of the Federal land manager.

(iii) The tribal chief, village council president or designee, or other Federally qualified subsistence user outside of the village in which the religious ceremony will be held must report to the Federal land manager the harvest location, species, sex, and number of animals taken as soon as practicable, but not more than 15 days after the wildlife is taken.

(4) In Units 20(F), 21, 24, and 25 (for Koyukon/Gwich'in potlatch ceremonies only):

(i) Taking wildlife outside of established season and harvest limits is authorized if it is for food for the traditional Koyukon/Gwich'in Potlatch Funeral or Mortuary ceremony and if it is consistent with conservation of healthy populations.

(ii) Immediately after the wildlife is taken, the tribal chief, village council president, or the chief's or president's designee for the village in which the religious ceremony will be held must create a list of the successful hunters and maintain these records. The list must be made available, after the harvest is completed, to a Federal land manager upon request.

(iii) As soon as practical, but not more than 15 days after the harvest, the tribal chief, village council president, or designee must notify the Federal land manager about the harvest location, species, sex, and number of animals taken.

(n) *Unit regulations.* You may take for subsistence unclassified wildlife, all squirrel species, and marmots in all Units, without harvest limits, for the period of July 1–June 30. Unit-specific restrictions or allowances for subsistence taking of wildlife are identified at paragraphs (n)(1) through (26) of this section.

(1) *Unit 1.* Unit 1 consists of all mainland drainages from Dixon Entrance to Cape Fairweather, and those islands east of the center line of Clarence Strait from Dixon Entrance to Caamano Point, and all islands in Stephens Passage and Lynn Canal north of Taku Inlet:

(i) Unit 1(A) consists of all drainages south of the latitude of Lemesurier

Point including all drainages into Behm Canal, excluding all drainages of Ernest Sound;

(ii) Unit 1(B) consists of all drainages between the latitude of Lemesurier Point and the latitude of Cape Fanshaw including all drainages of Ernest Sound and Farragut Bay, and including the islands east of the center lines of Frederick Sound, Dry Strait (between Sergief and Kadin Islands), Eastern Passage, Blake Channel (excluding Blake Island), Ernest Sound, and Seward Passage;

(iii) Unit 1(C) consists of that portion of Unit 1 draining into Stephens Passage and Lynn Canal north of Cape Fanshaw and south of the latitude of Eldred Rock including Berners Bay, Sullivan Island, and all mainland portions north of Chichagof Island and south of the latitude of Eldred Rock, excluding drainages into Farragut Bay;

(iv) Unit 1(D) consists of that portion of Unit 1 north of the latitude of Eldred Rock, excluding Sullivan Island and the drainages of Berners Bay;

(v) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) Public lands within Glacier Bay National Park are closed to all taking of wildlife for subsistence uses;

(B) Unit 1(A)—in the Hyder area, the Salmon River drainage downstream from the Riverside Mine, excluding the Thumb Creek drainage, is closed to the taking of bear;

(C) Unit 1(B)—the Anan Creek drainage within one mile of Anan Creek downstream from the mouth of Anan Lake, including the area within a one mile radius from the mouth of Anan Creek Lagoon, is closed to the taking of black bear and brown bear;

(D) Unit 1(C):

(1) You may not hunt within one-fourth mile of Mendenhall Lake, the U.S. Forest Service Mendenhall Glacier Visitor's Center, and the Center's parking area;

(2) You may not take mountain goat in the area of Mt. Bullard bounded by the Mendenhall Glacier, Nugget Creek from its mouth to its confluence with Goat Creek, and a line from the mouth of Goat Creek north to the Mendenhall Glacier;

(vi) You may not trap furbearers for subsistence uses in Unit 1(C), Juneau area, on the following public lands:

(A) A strip within one-quarter mile of the mainland coast between the end of Thane Road and the end of Glacier Highway at Echo Cove;

(B) That area of the Mendenhall Valley bounded on the south by the Glacier Highway, on the west by the Mendenhall Loop Road and Montana Creek Road and Spur Road to Mendenhall Lake, on the north by Mendenhall Lake, and on the east by the Mendenhall Loop Road and Forest Service Glacier Spur Road to the Forest Service Visitor Center;

(C) That area within the U.S. Forest Service Mendenhall Glacier Recreation Area;

(D) A strip within one-quarter mile of the following trails as designated on U.S. Geological Survey maps: Herbert Glacier Trail, Windfall Lake Trail, Peterson Lake Trail, Spaulding Meadows Trail (including the loop trail), Nugget Creek Trail, Outer Point Trail, Dan Moller Trail, Perseverance Trail, Granite Creek Trail, Mt. Roberts Trail and Nelson Water Supply Trail, Sheep Creek Trail, and Point Bishop Trail;

(vii) Unit-specific regulations:

(A) You may hunt black bear with bait in Units 1(A), 1(B), and 1(D) between April 15 and June 15;

(B) You may not shoot ungulates, bear, wolves, or wolverine from a boat, unless you are certified as disabled.

(21) *Unit 21.* (i) Unit 21 consists of drainages into the Yukon River upstream from Paimiut to, but not including the Tozitna River drainage on the north bank, and to, but not including the Tanana River drainage on the south bank; and excluding the Koyukuk River drainage upstream from the Dulbi River drainage;

(A) Unit 21(A) consists of the Innoko River drainage upstream from and including the Iditarod River drainage, and the Nowitna River drainage upstream from the Little Mud River;

(B) Unit 21(B) consists of the Yukon River drainage upstream from Ruby and east of the Ruby-Poorman Road, downstream from and excluding the Tozitna River and Tanana River drainages, and excluding the Nowitna River drainage upstream from the Little Mud River, and excluding the Melozitna River drainage upstream from Grayling Creek;

(C) Unit 21(C) consists of the Melozitna River drainage upstream from Grayling Creek, and the Dulbi River drainage upstream from and including the Cottonwood Creek drainage;

(D) Unit 21(D) consists of the Yukon River drainage from and including the Blackburn Creek drainage upstream to Ruby, including the area west of the Ruby-Poorman Road, excluding the Koyukuk River drainage upstream from the Dulbi River drainage, and excluding the Dulbi River drainage upstream from Cottonwood Creek;

(E) Unit 21(E) consists of the Yukon River drainage from Paimiut upstream to, but not including the Blackburn Creek drainage, and the Innoko River drainage downstream from the Iditarod River drainage.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) The Koyukuk Controlled Use Area, which consists of those portions of Unit 21 and 24 bounded by a line from the north bank of the Yukon River at Koyukuk at 64°52.58' N. lat., 157°43.10' W. long., then northerly to the confluences of the Honhosa and Kateel Rivers at 65°28.42' N. lat., 157°44.89' W. long., then northeasterly to the confluences of Billy Hawk Creek and the Huslia River (65°57' N. lat.,

156°41' W. long.) at 65°56.66' N. lat., 156°40.81' W. long., then easterly to the confluence of the forks of the Dakli River at 66°02.56' N. lat., 156°12.71' W. long., then easterly to the confluence of McLanes Creek and the Hogatza River at 66°00.31' N. lat., 155°18.57' W. long., then southwesterly to the crest of Hochandochtla Mountain at 65°31.87' N. lat., 154°52.18' W. long., then southwest to the mouth of Cottonwood Creek at 65°13.00' N. lat., 156°06.43' W. long., then southwest to Bishop Rock (Yistletaw) at 64°49.35' N. lat., 157°21.73' W. long., then westerly along the north bank of the Yukon River (including Koyukuk Island) to the point of beginning, is closed during moose-hunting seasons to the use of aircraft for hunting moose, including transportation of any moose hunter or moose part; however, this does not apply to transportation of a moose hunter or moose part by aircraft between publicly owned airports in the controlled use area or between a publicly owned airport within the area and points outside the area; all hunters on the Koyukuk River passing the ADF&G—operated check station at Ella's Cabin (15 miles upstream from the Yukon on the Koyukuk River) are required to stop and report to ADF&G personnel at the check station;

(B) The Paradise Controlled Use Area, which consists of that portion of Unit 21 bounded by a line beginning at the old village of Paimiut, then north along the west bank of the Yukon River to Paradise, then northwest to the mouth of Stanstrom Creek on the Bonasila River, then northeast to the mouth of the Anvik River, then along the west bank of the Yukon River to the lower end of Eagle Island (approximately 45 miles north of Grayling), then to the mouth of the Iditarod River, then down the east bank of the Innoko River to its confluence with Paimiut Slough, then south along the east bank of Paimiut Slough to its mouth, and then to the old village of Paimiut, is closed during moose hunting seasons to the use of aircraft for hunting moose, including transportation of any moose hunter or part of moose; however, this does not apply to transportation of a moose hunter or part of moose by aircraft between publicly owned airports in the Controlled

Use Area or between a publicly owned airport within the area and points outside the area.

(iii) You may hunt brown bear by State registration permit in lieu of a resident tag if you have obtained a State registration permit prior to hunting. Aircraft may not be used in any manner for brown bear hunting under the authority of a brown bear State registration permit, including transportation of hunters, bears, or parts of bears; however, this does not apply to transportation of bear hunters or bear parts by regularly scheduled flights to and between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iv) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30; and in the Koyukuk Controlled Use Area, you may also use bait to hunt black

bear between September 1 and September 25;

(B) If you have a trapping license, you may use a firearm to take beaver in Unit 21(E) from Nov. 1–June 10;

(C) The residents of Units 20 and 21 may take up to three moose per regulatory year for the celebration known as the Nuchalawoyya Potlatch, under the terms of a Federal registration permit. Permits will be issued to individuals only at the request of the Native Village of Tanana. This three moose limit is not cumulative with that permitted by the State;

(D) The residents of Unit 21 may take up to three moose per regulatory year for the celebration known as the Kaltag/Nulato Stickdance, under the terms of a Federal registration permit. Permits will be issued to individuals only at the request of the Native Village of Kaltag or Nulato. This three moose limit is not cumulative with that permitted by the State.

(24) *Unit 24.* (i) Unit 24 consists of the Koyukuk River drainage upstream from but not including the Dulbi River drainage.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not use firearms, snowmobiles, licensed highway vehicles, or motorized vehicles, except aircraft and boats in the Dalton Highway Corridor Management Area, which consists of those portions of Units 20, 24, 25, and 26 extending 5 miles from each side of the Dalton Highway from the Yukon River to milepost 300 of the Dalton Highway, except as follows: Residents living within the Dalton Highway Corridor Management Area may use snowmobiles only for the subsistence taking of wildlife. You may use licensed highway vehicles only on designated roads within the Dalton Highway Corridor Management Area. The residents of Alatna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, and Stevens Village, and residents living within the Corridor may use firearms within the Corridor only for subsistence taking of wildlife;

(B) You may not use aircraft for hunting moose, including transportation of any moose hunter or moose part in the Kanuti Controlled Use Area, which consists of that portion of Unit 24 bounded by a line from the Bettles Field VOR to the east side of Fish Creek Lake, to Old Dummy Lake, to the south end of Lake Todatonten (including all waters of these lakes), to the northernmost headwaters of Siruk Creek, to the highest peak of Double Point Mountain, then back to the Bettles Field VOR; however, this does not apply to transportation of a moose hunter or moose part by aircraft between publicly owned airports in the controlled use area or between a publicly owned airport within the area and points outside the area;

(C) You may not use aircraft for hunting moose, including transportation of any moose hunter or moose part in the Koyukuk Controlled Use Area, which consists of those portions of Unit 21 and 24 bounded by a line from the north bank of the Yukon River at Koyukuk at 64°52.58' N. lat., 157°43.10' W. long., then northerly to the confluences of the Honhosa and

Kateel Rivers at 65°28.42' N. lat., 157°44.89' W. long., then northeasterly to the confluences of Billy Hawk Creek and the Huslia River (65°57' N. lat., 156°41' W. long.) at 65°56.66' N. lat., 156°40.81' W. long., then easterly to the confluence of the forks of the Dakli River at 66°02.56' N. lat., 156°12.71' W. long., then easterly to the confluence of McLanes Creek and the Hogatza River at 66°00.31' N. lat., 155°18.57' W. long., then southwesterly to the crest of Hochandochtla Mountain at 65°31.87' N. lat., 154°52.18' W. long., then southwest to the mouth of Cottonwood Creek at 65°13.00' N. lat., 156°06.43' W. long., then southwest to Bishop Rock (Yistletaw) at 64°49.35' N. lat., 157°21.73' W. long., then westerly along the north bank of the Yukon River (including Koyukuk Island) to the point of beginning; however, this does not apply to transportation of a moose hunter or moose part by aircraft between publicly owned airports in the controlled use area or between a publicly owned airport within the area and points outside the area; all hunters on the Koyukuk River passing the ADF&G operated check station at Ella's Cabin (15 miles upstream from the Yukon on the Koyukuk River) are required to stop

and report to ADF&G personnel at the check station.

(iii) You may hunt brown bear by State registration permit in lieu of a resident tag if you have obtained a State registration permit prior to hunting. You may not use aircraft in any manner for brown bear hunting under the authority of a brown bear State registration permit, including transportation of hunters, bears, or parts of bears. However, this prohibition does not apply to transportation of bear hunters or bear parts by regularly scheduled flights to and between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iv) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30; and in the Koyukuk Controlled Use Area, you may also use bait to hunt black bear between September 1 and September 25;

(B) Arctic fox, incidentally taken with a trap or snare intended for red fox, may be used for subsistence purposes.

§ 100.26

(D) For the DeLong Mountain sheep hunts—A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take sheep on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated

hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for only one recipient in the course of a season and may have both his and the recipients' harvest limits in his/her possession at the same time.

Harvest limits	Open season
Hunting	
Black Bear: 3 bears	July 1–June 30.
Brown Bear:	
Unit 26(A)—1 bear by State registration permit	Sept. 1–May 31.
Unit 26(B)—1 bear	Sept. 1–May 31.
Unit 26(C)—1 bear	Aug. 10–June 30.
Caribou:	
Unit 26(A)—10 caribou per day; however, cow caribou may not be taken May 16–June 30. Federal lands south of the Colville River and east of the Killik River are closed to the taking of caribou by non-Federally qualified subsistence users from Aug. 1–Sept. 30.	July 1–June 30.
Unit 26(B)—10 caribou per day; however, cow caribou may be taken only from Oct. 1–Apr. 30.	July 1–June 30.
Unit 26(C)—10 caribou per day	July 1–Apr. 30.
(You may not transport more than 5 caribou per regulatory year from Unit 26 except to the community of Anaktuvuk Pass.).	
Sheep:	
Unit 26(A) and (B)—(Anaktuvuk Pass residents only)—that portion within the Gates of the Arctic National Park—community harvest quota of 60 sheep, no more than 10 of which may be ewes and a daily possession limit of 3 sheep per person, no more than 1 of which may be a ewe.	July 15–Dec. 31.
Unit 26(A)—(excluding Anaktuvuk Pass residents)—those portions within the Gates of the Arctic National Park—3 sheep.	Aug. 1–Apr. 30.
Unit 26(A)—that portion west of Howard Pass and the Etivluk River (DeLong Mountains)—1 sheep by Federal registration permit. The total allowable harvest of sheep for the DeLong Mountains is 8, of which 5 may be rams and 3 may be ewes.	Aug. 10–April 30. If the allowable harvest levels are reached before the regular season closing date, the Superintendent of the Western Arctic National Parklands will announce an early closure.
Unit 26(B)—that portion within the Dalton Highway Corridor Management Area—1 ram with $\frac{7}{8}$ curl or larger horn by Federal registration permit only.	Aug. 10–Sept. 20.
Unit 26(A)—remainder and 26(B)—remainder—including the Gates of the Arctic National Preserve—1 ram with $\frac{7}{8}$ curl or larger horn.	Aug. 10–Sept. 20.
Unit 26(C)—3 sheep per regulatory year; the Aug. 10–Sept. 20 season is restricted to 1 ram with $\frac{7}{8}$ curl or larger horn. A Federal registration permit is required for the Oct. 1–Apr. 30 season.	Oct. 1–Apr. 30.
Moose:	
Unit 26(A)—that portion of the Colville River drainage downstream from and including the Chandler River—1 bull. Federal public lands are closed to the taking of moose except by Federally qualified users.	Aug. 1–Sept. 14.
Unit 26(A)—portion of Unit 26 (A) west of 156°00' W. longitude and north of 69°20' N latitude. 1 moose; however, antlerless moose may only be taken July 1–August 31. You may not at any time take a calf or a cow accompanied by a calf.	July 1–Sept. 14.
Unit 26(A)—remainder—1 bull	Sept. 1–Sept. 14.
Unit 26(B) and (C)—1 moose by Federal registration permit by residents of Kaktovik only. The harvest quota is 3 moose (2 bulls and 1 of either sex), provided that no more than 2 bulls may be harvested from Unit 26(C) and cows may not be harvested from Unit 26(C). You may not take a cow accompanied by a calf. Only 3 Federal registration permits will be issued. Federal public lands are closed to the taking of moose except by a Kaktovik resident holding a Federal registration permit.	July 1–Mar. 31.
Muskox: Unit 26(C)—1 bull by Federal registration permit only. The number of permits that may be issued only to the residents of the village of Kaktovik will not exceed three percent (3%) of the number of muskoxen counted in Unit 26(C) during a pre-calving census. Public lands are closed to the taking of muskox, except by rural Alaska residents of the village of Kaktovik during open seasons.	July 15–Mar. 31.
Coyote: 2 coyotes	Sept. 1–Apr. 30.
Fox, Arctic (Blue and White Phase): 2 foxes	Sept. 1–Apr. 30.
Fox, Red (including Cross, Black and Silver Phases):	
Unit 26(A) and (B)—10 foxes; however, no more than 2 foxes may be taken prior to Oct. 1.	Sept. 1–Mar. 15.
Unit 26(C)—10 foxes	Nov. 1–Apr. 15.

Harvest limits	Open season
Hare (Snowshoe and Tundra): No limit	July 1–June 30.
Lynx: 2 lynx	Nov. 1–Apr. 15.
Wolf: 15 wolves	Aug. 10–Apr. 30.
Wolverine: 5 wolverine	Sept. 1–Mar. 31.
Ptarmigan (Rock and Willow): 20 per day, 40 in possession	Aug. 10–Apr. 30.
Trapping	
Coyote: No limit	Nov. 1–Apr. 15.
Fox, Arctic (Blue and White Phase): No limit	Nov. 1–Apr. 15.
Fox, Red (including Cross, Black and Silver Phases): No limit	Nov. 1–Apr. 15.
Lynx: No limit	Nov. 1–Apr. 15.
Marten: No limit	Nov. 1–Apr. 15.
Mink and Weasel: No limit	Nov. 1–Jan. 31.
Muskrat: No limit	Nov. 1–June 10.
Otter: No limit	Nov. 1–Apr. 15.
Wolf: No limit	Nov. 1–Apr. 30.
Wolverine: No limit	Nov. 1–Apr. 15.

[69 FR 40189, July 1, 2004, as amended at 69 FR 53012, Aug. 31, 2004]

EFFECTIVE DATE NOTES: 1. At 69 FR 40189, July 1, 2004, §100.26 was added, effective July 1, 2004 through June 30, 2005.

2. At 69 FR 53012, Aug. 31, 2004, in §100.26, in paragraph (n)(10), the entry for caribou in the table showing Harvest Limits was revised, effective July 1, 2004 through June 30, 2005.

§ 100.27 Subsistence taking of fish.

(a) *Applicability.* (1) Regulations in this section apply to the taking of fish or their parts for subsistence uses.

(2) You may take fish for subsistence uses at any time by any method unless you are restricted by the subsistence fishing regulations found in this section. The harvest limit specified in this section for a subsistence season for a species and the State harvest limit set for a State season for the same species are not cumulative, except as modified by regulations in §100.27(i). This means that if you have taken the harvest limit for a particular species under a subsistence season specified in this section, you may not, after that, take any additional fish of that species under any other harvest limit specified for a State season.

(b) [Reserved]

(c) *Methods, means, and general restrictions.* (1) Unless otherwise specified in this section or under terms of a required subsistence fishing permit (as may be modified by this section), you may use the following legal types of gear for subsistence fishing:

- (i) A set gillnet;
- (ii) A drift gillnet;

- (iii) A purse seine;
- (iv) A hand purse seine;
- (v) A beach seine;
- (vi) Troll gear;
- (vii) A fish wheel;
- (viii) A trawl;
- (ix) A pot;
- (x) A longline;
- (xi) A fyke net;
- (xii) A lead;
- (xiii) A herring pound;
- (xiv) A dip net;
- (xv) Jigging gear;
- (xvi) A mechanical jigging machine;
- (xvii) A handline;
- (xviii) A cast net;
- (xix) A rod and reel; and
- (xx) A spear.

(2) You must include an escape mechanism on all pots used to take fish or shellfish. The escape mechanisms are as follows:

- (i) A sidewall, which may include the tunnel, of all shellfish and bottomfish pots must contain an opening equal to or exceeding 18 inches in length, except that in shrimp pots the opening must be a minimum of 6 inches in length. The opening must be laced, sewn, or secured together by a single length of untreated, 100 percent cotton twine, no larger than 30 thread. The cotton twine may be knotted at each end only. The opening must be within 6 inches of the bottom of the pot and must be parallel with it. The cotton twine may not be tied or looped around the web bars. Dungeness crab pots may have the pot lid tie-down straps secured to the pot at one end by a single loop of untreated, 100 percent cotton twine no larger than 60 thread, or the pot lid

must be secured so that, when the twine degrades, the lid will no longer be securely closed;

(ii) All king crab, Tanner crab, shrimp, miscellaneous shellfish and bottomfish pots may, instead of complying with paragraph (c)(2)(i) of this section, satisfy the following: a sidewall, which may include the tunnel, must contain an opening at least 18 inches in length, except that shrimp pots must contain an opening at least 6 inches in length. The opening must be laced, sewn, or secured together by a single length of treated or untreated twine, no larger than 36 thread. A galvanic timed-release device, designed to release in no more than 30 days in saltwater, must be integral to the length of twine so that, when the device releases, the twine will no longer secure or obstruct the opening of the pot. The twine may be knotted only at each end and at the attachment points on the galvanic timed-release device. The opening must be within 6 inches of the bottom of the pot and must be parallel with it. The twine may not be tied or looped around the web bars.

(3) For subsistence fishing for salmon, you may not use a gillnet exceeding 50 fathoms in length, unless otherwise specified in this section. The gillnet web must contain at least 30 filaments of equal diameter or at least 6 filaments, each of which must be at least 0.20 millimeter in diameter.

(4) Except as otherwise provided for in this section, you may not obstruct more than one-half the width of any stream with any gear used to take fish for subsistence uses.

(5) You may not use live nonindigenous fish as bait.

(6) You must have your first initial, last name, and address plainly and legibly inscribed on the side of your fishwheel facing midstream of the river.

(7) You may use kegs or buoys of any color but red on any permitted gear, except in the following areas where kegs or buoys of any color, including red, may be used:

- (i) Yukon-Northern Area; and
- (ii) Kuskokwim Area.

(8) You must have your first initial, last name, and address plainly and legibly inscribed on each keg, buoy,

stakes attached to gillnets, stakes identifying gear fished under the ice, and any other unattended fishing gear which you use to take fish for subsistence uses.

(9) You may not use explosives or chemicals to take fish for subsistence uses.

(10) You may not take fish for subsistence uses within 300 feet of any dam, fish ladder, weir, culvert or other artificial obstruction, unless otherwise indicated.

(11) *Transactions between rural residents.* Rural residents may exchange in customary trade subsistence-harvested fish, their parts, or their eggs, legally taken under the regulations in this part, for cash from other rural residents. The Board may recognize regional differences and define customary trade differently for separate regions of the State.

(i) Bristol Bay Fishery Management Area—The total cash value per household of salmon taken within Federal jurisdiction in the Bristol Bay Fishery Management Area and exchanged in customary trade to rural residents may not exceed \$500.00 annually.

(ii) [Reserved]

(12) *Transactions between a rural resident and others.* In customary trade, a rural resident may trade fish, their parts, or their eggs, legally taken under the regulations in this part, for cash from individuals other than rural residents if the individual who purchases the fish, their parts, or their eggs uses them for personal or family consumption. If you are not a rural resident, you may not sell fish, their parts, or their eggs taken under the regulations in this part. The Board may recognize regional differences and define customary trade differently for separate regions of the State.

(i) Bristol Bay Fishery Management Area—The total cash value per household of salmon taken within Federal jurisdiction in the Bristol Bay Fishery Management Area and exchanged in customary trade between rural residents and individuals other than rural residents may not exceed \$400.00 annually. These customary trade sales must be immediately recorded on a customary trade recordkeeping form. The

recording requirement and the responsibility to ensure the household limit is not exceeded rests with the seller.

(ii) [Reserved]

(13) *No sale to, nor purchase by, fisheries businesses.*

(i) You may not sell fish, their parts, or their eggs taken under the regulations in this part to any individual, business, or organization required to be licensed as a fisheries business under Alaska Statute AS 43.75.011 (commercial limited-entry permit or crew license holders excluded) or to any other business as defined under Alaska Statute 43.70.110(1) as part of its business transactions.

(ii) If you are required to be licensed as a fisheries business under Alaska Statute AS 43.75.011 (commercial limited-entry permit or crew license holders excluded) or are a business as defined under Alaska Statute 43.70.110(1), you may not purchase, receive, or sell fish, their parts, or their eggs taken under the regulations in this part as part of your business transactions.

(14) Except as provided elsewhere in this section, you may not take rainbow/steelhead trout.

(15) You may not use fish taken for subsistence use or under subsistence regulations in this part as bait for commercial or sport fishing purposes.

(16) [Reserved]

(17) Unless specified otherwise in this section, you may use a rod and reel to take fish without a subsistence fishing permit. Harvest limits applicable to the use of a rod and reel to take fish for subsistence uses shall be as follows:

(i) If you are required to obtain a subsistence fishing permit for an area, that permit is required to take fish for subsistence uses with rod and reel in that area. The harvest and possession limits for taking fish with a rod and reel in those areas are the same as indicated on the permit issued for subsistence fishing with other gear types;

(ii) Except as otherwise provided for in this section, if you are not required to obtain a subsistence fishing permit for an area, the harvest and possession limits for taking fish for subsistence uses with a rod and reel are the same as for taking fish under State of Alaska subsistence fishing regulations in those same areas. If the State does not

have a specific subsistence season and/or harvest limit for that particular species, the limit shall be the same as for taking fish under State of Alaska sport fishing regulations.

(18) Unless restricted in this section, or unless restricted under the terms of a subsistence fishing permit, you may take fish for subsistence uses at any time.

(19) Provisions on ADF&G subsistence fishing permits that are more restrictive or in conflict with the provisions contained in this section do not apply to Federal subsistence users.

(20) You may not intentionally waste or destroy any subsistence-caught fish or shellfish; however, you may use for bait or other purposes, whitefish, herring, and species for which harvest limits, seasons, or other regulatory methods and means are not provided in this section, as well as the head, tail, fins, and viscera of legally-taken subsistence fish.

(21) The taking of fish from waters within Federal jurisdiction is authorized outside of published open seasons or harvest limits if the harvested fish will be used for food in traditional or religious ceremonies that are part of funerary or mortuary cycles, including memorial potlatches, provided that:

(i) Prior to attempting to take fish, the person (or designee) or Tribal Government organizing the ceremony contacts the appropriate Federal fisheries manager to provide the nature of the ceremony, the parties and/or clans involved, the species and the number of fish to be taken, and the Federal waters from which the harvest will occur;

(ii) The taking does not violate recognized principles of fisheries conservation, and uses the methods and means allowable for the particular species published in the applicable Federal regulations (the Federal fisheries manager will establish the number, species, or place of taking if necessary for conservation purposes);

(iii) Each person who takes fish under this section must, as soon as practical, and not more than 15 days after the harvest, submit a written report to the appropriate Federal fisheries manager, specifying the harvester's name and address, the number

and species of fish taken, and the date and locations of the taking; and

(iv) No permit is required for taking under this section; however, the harvester must be eligible to harvest the resource under Federal regulations.

(d) [Reserved]

(e) *Fishing permits and reports.* (1) You may take salmon only under the authority of a subsistence fishing permit, unless a permit is specifically not required in a particular area by the subsistence regulations in this part, or unless you are retaining salmon from your commercial catch consistent with paragraph (f) of this section.

(2) The U.S. Fish and Wildlife Service, Office of Subsistence Management may issue a permit to harvest fish for a qualifying cultural/educational program to an organization that has been granted a Federal subsistence permit for a similar event within the previous 5 years. A qualifying program must have instructors, enrolled students, minimum attendance requirements, and standards for successful completion of the course. Applications must be submitted to the Office of Subsistence Management 60 days prior to the earliest desired date of harvest. Permits will be issued for no more than 25 fish per culture/education camp. Appeal of a rejected request can be made to the Federal Subsistence Board. Application for an initial permit for a qualifying cultural/educational program, for a permit when the circumstances have changed significantly, when no permit has been issued within the previous 5 years, or when there is a request for harvest in excess of that provided in this paragraph (e)(2), will be considered by the Federal Subsistence Board.

(3) If a subsistence fishing permit is required by this section, the following permit conditions apply unless otherwise specified in this section:

(i) You may not take more fish for subsistence use than the limits set out in the permit;

(ii) You must obtain the permit prior to fishing;

(iii) You must have the permit in your possession and readily available for inspection while fishing or transporting subsistence-taken fish;

(iv) If specified on the permit, you must record, prior to leaving the harvest site, daily records of the catch, showing the number of fish taken by species, location and date of catch, and other such information as may be required for management or conservation purposes; and

(v) If the return of catch information necessary for management and conservation purposes is required by a fishing permit and you fail to comply with such reporting requirements, you are ineligible to receive a subsistence permit for that activity during the following calendar year, unless you demonstrate that failure to report was due to loss in the mail, accident, sickness, or other unavoidable circumstances. You must also return any tags or transmitters that have been attached to fish for management and conservation purposes.

(f) *Relation to commercial fishing activities.* (1) If you are a Federally-qualified subsistence user who also commercial fishes, you may retain fish for subsistence purposes from your lawfully-taken commercial catch.

(2) When participating in a commercial and subsistence fishery at the same time, you may not use an amount of combined fishing gear in excess of that allowed under the appropriate commercial fishing regulations.

(g) You may not possess, transport, give, receive, or barter subsistence-taken fish or their parts which have been taken contrary to Federal law or regulation or State law or regulation (unless superseded by regulations in this part).

(h) [Reserved]

(i) *Fishery management area restrictions.* (1) *Kotzebue Area.* The Kotzebue Area includes all waters of Alaska between the latitude of the westernmost tip of Point Hope and the latitude of the westernmost tip of Cape Prince of Wales, including those waters draining into the Chukchi Sea.

(i) You may take fish for subsistence purposes without a permit.

(ii) You may take salmon only by gillnets, beach seines, or a rod and reel.

(iii) In the Kotzebue District, you may take sheefish with gillnets that are not more than 50 fathoms in length, nor more than 12 meshes in

depth, nor have a stretched-mesh size larger than 7 inches.

(iv) You may not obstruct more than one-half the width of a stream, creek, or slough with any gear used to take fish for subsistence uses, except from May 15 to July 15 and August 15 to October 31 when taking whitefish or pike in streams, creeks, or sloughs within the Kobuk River drainage and from May 15 to October 31 in the Selawik River drainage. Only one gillnet 100 feet or less in length with a stretched-mesh size from 2½ to 4½ inches may be used per site. You must check your net at least once in every 24-hour period.

(2) *Norton Sound-Port Clarence Area.* The Norton Sound-Port Clarence Area includes all waters of Alaska between the latitude of the westernmost tip of Cape Prince of Wales and the latitude of Point Romanof, including those waters of Alaska surrounding St. Lawrence Island and those waters draining into the Bering Sea.

(i) Unless otherwise restricted in this section, you may take fish at any time in the Port Clarence District.

(ii) In the Norton Sound District, you may take fish at any time except as follows:

(A) In Subdistricts 2 through 6, if you are a commercial fisherman, you may not fish for subsistence purposes during the weekly closures of the State commercial salmon fishing season, except that from July 15 through August 1, you may take salmon for subsistence purposes 7 days per week in the Unalakleet and Shaktoolik River drainages with gillnets which have a stretched-mesh size that does not exceed 4½ inches, and with beach seines;

(B) In the Unalakleet River from June 1 through July 15, you may take salmon only from 8 a.m. Monday until 8 p.m. Saturday.

(iii) You may take salmon only by gillnets, beach seines, fishwheel, or a rod and reel.

(iv) You may take fish other than salmon by set gillnet, drift gillnet, beach seine, fish wheel, pot, long line, fyke net, jigging gear, spear, lead, or a rod and reel.

(v) In the Unalakleet River from June 1 through July 15, you may not operate more than 25 fathoms of gillnet

in the aggregate nor may you operate an unanchored gillnet.

(vi) You must have a subsistence fishing permit for net fishing in all waters from Cape Douglas to Rocky Point.

(vii) Only one subsistence fishing permit will be issued to each household per year.

(3) *Yukon-Northern Area.* The Yukon-Northern Area includes all waters of Alaska between the latitude of Point Romanof and the latitude of the westernmost point of the Naskonat Peninsula, including those waters draining into the Bering Sea, and all waters of Alaska north of the latitude of the westernmost tip of Point Hope and west of 141° West longitude, including those waters draining into the Arctic Ocean and the Chukchi Sea.

(i) Unless otherwise restricted in this section, you may take fish in the Yukon-Northern Area at any time. You may subsistence fish for salmon with rod and reel in the Yukon River drainage 24 hours per day, 7 days per week, unless rod and reel are specifically restricted by this paragraph (i)(3) of this section.

(ii) For the Yukon River drainage, Federal subsistence fishing schedules, openings, closings, and fishing methods are the same as those issued for the subsistence taking of fish under Alaska Statutes (AS 16.05.060), unless superseded by a Federal Special Action.

(iii) In the following locations, you may take salmon during the open weekly fishing periods of the State commercial salmon fishing season and may not take them for 24 hours before the opening of the State commercial salmon fishing season:

(A) In District 4, excluding the Koyukuk River drainage;

(B) In Subdistricts 4-B and 4-C from June 15 through September 30, salmon may be taken from 6 p.m. Sunday until 6 p.m. Tuesday and from 6 p.m. Wednesday until 6 p.m. Friday;

(C) In District 6, excluding the Kantishna River drainage, salmon may be taken from 6 p.m. Friday until 6 p.m. Wednesday.

(iv) During any State commercial salmon fishing season closure of greater than five days in duration, you may

not take salmon during the following periods in the following districts:

(A) In District 4, excluding the Koyukuk River drainage, salmon may not be taken from 6 p.m. Friday until 6 p.m. Sunday;

(B) In District 5, excluding the Tozitna River drainage and Subdistrict 5-D, salmon may not be taken from 6 p.m. Sunday until 6 p.m. Tuesday.

(v) Except as provided in this section, and except as may be provided by the terms of a subsistence fishing permit, you may take fish other than salmon at any time.

(vi) In Districts 1, 2, 3, and Subdistrict 4-A, excluding the Koyukuk and Innoko River drainages, you may not take salmon for subsistence purposes during the 24 hours immediately before the opening of the State commercial salmon fishing season.

(vii) In Districts 1, 2, and 3:

(A) After the opening of the State commercial salmon fishing season through July 15, you may not take salmon for subsistence for 18 hours immediately before, during, and for 12 hours after each State commercial salmon fishing period;

(B) After July 15, you may not take salmon for subsistence for 12 hours immediately before, during, and for 12 hours after each State commercial salmon fishing period.

(viii) In Subdistrict 4-A after the opening of the State commercial salmon fishing season, you may not take salmon for subsistence for 12 hours immediately before, during, and for 12 hours after each State commercial salmon fishing period; however, you may take king salmon during the State commercial fishing season, with drift gillnet gear only, from 6 p.m. Sunday until 6 p.m. Tuesday and from 6 p.m. Wednesday until 6 p.m. Friday.

(ix) You may not subsistence fish in the following drainages located north of the main Yukon River:

(A) Kanuti River upstream from a point 5 miles downstream of the State highway crossing;

(B) Bonanza Creek;

(C) Jim River including Prospect and Douglas Creeks.

(x) You may not subsistence fish in the Delta River.

(xi) In Beaver Creek downstream from the confluence of Moose Creek, a gillnet with mesh size not to exceed 3-inches stretch-measure may be used from June 15 to September 15. You may subsistence fish for all non-salmon species but may not target salmon during this time period (retention of salmon taken incidentally to non-salmon directed fisheries is allowed). From the mouth of Nome Creek downstream to the confluence of Moose Creek, only rod and reel may be used. From the mouth of Nome Creek downstream to the confluence of O'Brien Creek, the daily harvest and possession limit is 5 grayling; from the mouth of O'Brien Creek downstream to the confluence of Moose Creek, the daily harvest and possession limit is 10 grayling. The Nome Creek drainage of Beaver Creek is closed to subsistence fishing for grayling.

(xii) You may not subsistence fish in the Toklat River drainage from August 15 through May 15.

(xiii) You may take salmon only by gillnet, beach seine, fish wheel, or rod and reel, subject to the restrictions set forth in this section.

(xiv) In District 4, if you are a commercial fisherman, you may not take salmon for subsistence purposes during the State commercial salmon fishing season using gillnets with stretched-mesh larger than 6-inches after a date specified by ADF&G emergency order issued between July 10 and July 31.

(xv) In Districts 4, 5, and 6, you may not take salmon for subsistence purposes by drift gillnets, except as follows:

(A) In Subdistrict 4-A upstream from the mouth of Stink Creek, you may take king salmon by drift gillnets less than 150 feet in length from June 10 through July 14, and chum salmon by drift gillnets after August 2;

(B) In Subdistrict 4-A downstream from the mouth of Stink Creek, you may take king salmon by drift gillnets less than 150 feet in length from June 10 through July 14.

(xvi) Unless otherwise specified in this section, you may take fish other than salmon and halibut by set gillnet, drift gillnet, beach seine, fish wheel, long line, fyke net, dip net, jigging

gear, spear, lead, or rod and reel, subject to the following restrictions, which also apply to subsistence salmon fishing:

(A) During the open weekly fishing periods of the State commercial salmon fishing season, if you are a commercial fisherman, you may not operate more than one type of gear at a time, for commercial, personal use, and subsistence purposes;

(B) You may not use an aggregate length of set gillnet in excess of 150 fathoms and each drift gillnet may not exceed 50 fathoms in length;

(C) In Districts 4, 5, and 6, you may not set subsistence fishing gear within 200 feet of other operating commercial, personal use, or subsistence fishing gear except that, at the site approximately 1 mile upstream from Ruby on the south bank of the Yukon River between ADF&G regulatory markers containing the area known locally as the "Slide," you may set subsistence fishing gear within 200 feet of other operating commercial or subsistence fishing gear and in District 4, from Old Paradise Village upstream to a point 4 miles upstream from Anvik, there is no minimum distance requirement between fish wheels;

(D) During the State commercial salmon fishing season, within the Yukon River and the Tanana River below the confluence of the Wood River, you may use drift gillnets and fish wheels only during open subsistence salmon fishing periods;

(E) In Birch Creek, gillnet mesh size may not exceed 3-inches stretch-measure from June 15 through September 15.

(xvii) In District 4, from September 21 through May 15, you may use jigging gear from shore ice.

(xviii) You must possess a subsistence fishing permit for the following locations:

(A) For the Yukon River drainage from the mouth of Hess Creek to the mouth of the Dall River;

(B) For the Yukon River drainage from the upstream mouth of 22 Mile Slough to the U.S.-Canada border;

(C) Only for salmon in the Tanana River drainage above the mouth of the Wood River.

(xix) Only one subsistence fishing permit will be issued to each household per year.

(xx) In Districts 1, 2, and 3, you may not possess king salmon taken for subsistence purposes unless the dorsal fin has been removed immediately after landing.

(xxi) In the Yukon River drainage, chinook (king) salmon must be used primarily for human consumption and may not be targeted for dog food. Dried chinook salmon may not be used for dogfood anywhere in the Yukon River drainage. Whole fish unfit for human consumption (due to disease, deterioration, deformities), scraps, and small fish (16 inches or less) may be fed to dogs. Also, whole chinook salmon caught incidentally during a subsistence chum salmon fishery in the following time periods and locations may be fed to dogs:

(A) After July 10 in the Koyukuk River drainage;

(B) After August 10, in Subdistrict 5-D, upstream of Circle City.

(4) *Kuskokwim Area.* The Kuskokwim Area consists of all waters of Alaska between the latitude of the westernmost point of Naskonat Peninsula and the latitude of the southernmost tip of Cape Newenham, including the waters of Alaska surrounding Nunivak and St. Matthew Islands and those waters draining into the Bering Sea.

(i) Unless otherwise restricted in this section, you may take fish in the Kuskokwim Area at any time without a subsistence fishing permit.

(ii) For the Kuskokwim area, Federal subsistence fishing schedules, openings, closings, and fishing methods are the same as those issued for the subsistence taking of fish under Alaska Statutes (AS 16.05.060), unless superseded by a Federal Special Action.

(iii) In District 1 and in those waters of the Kuskokwim River between Districts 1 and 2, excluding the Kuskokuak Slough, you may not take salmon for 16 hours before, during, and for 6 hours after, each State open commercial salmon fishing period for District 1.

(iv) In District 1, Kuskokuak Slough, from June 1 through July 31 only, you

may not take salmon for 16 hours before and during each State open commercial salmon fishing period in the district.

(v) In Districts 4 and 5, from June 1 through September 8, you may not take salmon for 16 hours before, during, and 6 hours after each State open commercial salmon fishing period in each district.

(vi) In District 2, and anywhere in tributaries that flow into the Kuskokwim River within that district, from June 1 through September 8 you may not take salmon by net gear or fishwheel for 16 hours before, during, and 6 hours after each open commercial salmon fishing period in the district. You may subsistence fish for salmon with rod and reel 24 hours per day, 7 days per week, unless rod and reel are specifically restricted by this paragraph (i)(4) of this section.

(vii) You may not take subsistence fish by nets in the Goodnews River east of a line between ADF&G regulatory markers placed near the mouth of the Ufigag River and an ADF&G regulatory marker placed near the mouth of the Tunulik River 16 hours before, during, and 6 hours after each State open commercial salmon fishing period.

(viii) You may not take subsistence fish by nets in the Kanektok River upstream of ADF&G regulatory markers placed near the mouth 16 hours before, during, and 6 hours after each State open commercial salmon fishing period.

(ix) You may not take subsistence fish by nets in the Arolik River upstream of ADF&G regulatory markers placed near the mouth 16 hours before, during, and 6 hours after each State open commercial salmon fishing period.

(x) You may only take salmon by gillnet, beach seine, fish wheel, or rod and reel subject to the restrictions set out in this section, except that you may also take salmon by spear in the Holitna, Kanektok, and Arolik River drainages, and in the drainage of Goodnews Bay.

(xi) You may not use an aggregate length of set gillnets or drift gillnets in excess of 50 fathoms for taking salmon.

(xii) You may take fish other than salmon by set gillnet, drift gillnet,

beach seine, fish wheel, pot, long line, fyke net, dip net, jigging gear, spear, lead, handline, or rod and reel.

(xiii) You must attach to the bank each subsistence gillnet operated in tributaries of the Kuskokwim River and fish it substantially perpendicular to the bank and in a substantially straight line.

(xiv) Within a tributary to the Kuskokwim River in that portion of the Kuskokwim River drainage from the north end of Eek Island upstream to the mouth of the Kolmakoff River, you may not set or operate any part of a set gillnet within 150 feet of any part of another set gillnet.

(xv) The maximum depth of gillnets is as follows:

(A) Gillnets with 6-inch or smaller stretched-mesh may not be more than 45 meshes in depth;

(B) Gillnets with greater than 6-inch stretched-mesh may not be more than 35 meshes in depth.

(xvi) You may take halibut only by a single hand-held line with no more than two hooks attached to it.

(xvii) You may not use subsistence set and drift gillnets exceeding 15 fathoms in length in Whitefish Lake in the Ophir Creek drainage. You may not operate more than one subsistence set or drift gillnet at a time in Whitefish Lake in the Ophir Creek drainage. You must check the net at least once every 24 hours.

(xviii) Rainbow trout may be taken by only residents of Goodnews Bay, Platinum, Quinhagak, Eek, Kwethluk, Akiachak, and Akiak. The following restrictions apply:

(A) You may take rainbow trout only by the use of gillnets, dip nets, fyke nets, handline, spear, rod and reel, or jigging through the ice;

(B) You may not use gillnets, dip nets, or fyke nets for targeting rainbow trout from March 15 through June 15;

(C) If you take rainbow trout incidentally in other subsistence net fisheries and through the ice, you may retain them for subsistence purposes;

(D) There are no harvest limits with handline, spear, rod and reel, or jigging.

(5) *Bristol Bay Area.* The Bristol Bay Area includes all waters of Bristol Bay, including drainages enclosed by a line

from Cape Newenham to Cape Menshikof.

(i) Unless restricted in this section, or unless under the terms of a subsistence fishing permit, you may take fish at any time in the Bristol Bay area.

(ii) In all State commercial salmon districts, from May 1 through May 31 and October 1 through October 31, you may subsistence fish for salmon only from 9 a.m. Monday until 9 a.m. Friday. From June 1 through September 30, within the waters of a commercial salmon district, you may take salmon only during State open commercial salmon fishing periods.

(iii) In the Egegik River from 9 a.m. June 23 through 9 a.m. July 17, you may take salmon only from 9 a.m. Tuesday to 9 a.m. Wednesday and 9 a.m. Saturday to 9 a.m. Sunday.

(iv) You may not take fish from waters within 300 feet of a stream mouth used by salmon.

(v) You may not subsistence fish with nets in the Tazimina River and within one-fourth mile of the terminus of those waters during the period from September 1 through June 14.

(vi) Within any district, you may take salmon, herring, and capelin only by drift and set gillnets.

(vii) Outside the boundaries of any district, you may take salmon only by set gillnet, except that you may also take salmon by spear in the Togiak River, excluding its tributaries.

(viii) The maximum lengths for set gillnets used to take salmon are as follows:

(A) You may not use set gillnets exceeding 10 fathoms in length in the Egegik River;

(B) In the remaining waters of the area, you may not use set gillnets exceeding 25 fathoms in length.

(ix) You may not operate any part of a set gillnet within 300 feet of any part of another set gillnet.

(x) You must stake and buoy each set gillnet. Instead of having the identifying information on a keg or buoy attached to the gillnet, you may plainly and legibly inscribe your first initial, last name, and subsistence permit number on a sign at or near the set gillnet.

(xi) You may not operate or assist in operating subsistence salmon net gear

while simultaneously operating or assisting in operating commercial salmon net gear.

(xii) During State closed commercial herring fishing periods, you may not use gillnets exceeding 25 fathoms in length for the subsistence taking of herring or capelin.

(xiii) You may take fish other than salmon, rainbow trout, herring, capelin, and halibut by gear listed in this part unless restricted under the terms of a subsistence fishing permit.

(xiv) You may take salmon and char only under authority of a subsistence fishing permit. You may take rainbow trout only under authority of a Federal subsistence fishing permit; permit conditions and systems to receive special protection will be determined by the local Federal fisheries manager in consultation with ADF&G and local users.

(xv) Only one subsistence fishing permit for salmon, one for char, and one for rainbow trout may be issued to each household per year.

(xvi) In the Togiak River section and the Togiak River drainage, you may not possess coho salmon taken under the authority of a subsistence fishing permit unless both lobes of the caudal fin (tail) or the dorsal fin have been removed.

(xvii) You may take rainbow trout only by rod and reel or jigging gear. Rainbow trout daily harvest and possession limits are 2 per day/2 in possession with no size limit from April 10 through October 31 and 5 per day/5 in possession with no size limit from November 1 through April 9.

(xviii) If you take rainbow trout incidentally in other subsistence net fisheries, or through the ice, you may retain them for subsistence purposes.

(6) *Aleutian Islands Area.* The Aleutian Islands Area includes all waters of Alaska west of the longitude of the tip of Cape Sarichef, east of 172° East longitude, and south of 54°36' North latitude.

(i) You may take fish other than salmon, rainbow/steelhead trout, or char at any time unless restricted under the terms of a subsistence fishing permit. If you take rainbow/steelhead trout incidentally in other subsistence net fisheries, you may retain them for subsistence purposes.

(ii) In the Unalaska District, you may take salmon for subsistence purposes from 6 a.m. until 9 p.m. from January 1 through December 31, except as may be specified on a subsistence fishing permit.

(iii) In the Adak, Akutan, Atka-Amlia, and Umnak Districts, you may take salmon at any time.

(iv) You may not subsistence fish for salmon in the following waters:

(A) The waters of Unalaska Lake, its tributaries and outlet stream;

(B) The waters of Summers and Morris Lakes and their tributaries and outlet streams;

(C) All streams supporting anadromous fish runs that flow into Unalaska Bay south of a line from the northern tip of Cape Cheerful to the northern tip of Kalekta Point;

(D) Waters of McLees Lake and its tributaries and outlet stream;

(E) All freshwater on Adak Island and Kagalaska Island in the Adak District.

(v) You may take salmon by seine and gillnet, or with gear specified on a subsistence fishing permit.

(vi) In the Unalaska District, if you fish with a net, you must be physically present at the net at all times when the net is being used.

(vii) You may take fish other than salmon by gear listed in this part unless restricted under the terms of a subsistence fishing permit.

(viii) You may take salmon, trout, and char only under the terms of a subsistence fishing permit, except that you do not need a permit in the Akutan, Umnak, and Atka-Amlia Islands Districts.

(ix) You may take no more than 250 salmon for subsistence purposes unless otherwise specified on the subsistence fishing permit, except that in the Unalaska and Adak Districts, you may take no more than 25 salmon plus an additional 25 salmon for each member of your household listed on the permit. You may obtain an additional permit.

(x) You must keep a record on the reverse side of the permit of subsistence-caught fish. You must complete the record immediately upon taking subsistence-caught fish and must return it no later than October 31.

(xi) The daily harvest limit for halibut is two fish, and the possession limit is two daily harvest limits. You may not possess sport-taken and subsistence-taken halibut on the same day.

(7) *Alaska Peninsula Area.* The Alaska Peninsula Area includes all Pacific Ocean waters of Alaska between a line extending southeast (135°) from the tip of Kupreanof Point and the longitude of the tip of Cape Sarichef, and all Bering Sea waters of Alaska east of the longitude of the tip of Cape Sarichef and south of the latitude of the tip of Cape Menshikof.

(i) You may take fish, other than salmon, rainbow/steelhead trout, or char, at any time unless restricted under the terms of a subsistence fishing permit. If you take rainbow/steelhead trout incidentally in other subsistence net fisheries or through the ice, you may retain them for subsistence purposes.

(ii) You may take salmon, trout, and char only under the authority of a subsistence fishing permit.

(iii) You must keep a record on the reverse side of the permit of subsistence-caught fish. You must complete the record immediately upon taking subsistence-caught fish and must return it no later than October 31.

(iv) You may take salmon at any time except within 24 hours before and within 12 hours following each State open weekly commercial salmon fishing period within a 50-mile radius of the area open to commercial salmon fishing, or as may be specified on a subsistence fishing permit.

(v) You may not subsistence fish for salmon in the following waters:

(A) Russell Creek and Nurse Lagoon and within 500 yards outside the mouth of Nurse Lagoon;

(B) Trout Creek and within 500 yards outside its mouth.

(vi) You may take salmon by seine, gillnet, rod and reel, or with gear specified on a subsistence fishing permit.

(vii) You may take fish other than salmon by gear listed in this part unless restricted under the terms of a subsistence fishing permit.

(viii) You may not use a set gillnet exceeding 100 fathoms in length.

(ix) You may take halibut for subsistence purposes only by a single handheld line with no more than two hooks attached.

(x) You may take no more than 250 salmon for subsistence purposes unless otherwise specified on your subsistence fishing permit.

(xi) The daily harvest limit for halibut is two fish and the possession limit is two daily harvest limits. You may not possess sport-taken and subsistence-taken halibut on the same day.

(8) *Chignik Area.* The Chignik Area includes all waters of Alaska on the south side of the Alaska Peninsula enclosed by 156°20.22' West longitude (the longitude of the southern entrance to Imuya Bay near Kilokak Rocks) and a line extending southeast (135°) from the tip of Kupreanof Point.

(i) You may take fish other than salmon, rainbow/steelhead trout, or char at any time, except as may be specified by a subsistence fishing permit. If you take rainbow/steelhead trout incidentally in other subsistence net fisheries, you may retain them for subsistence purposes.

(ii) You may not take salmon in the Chignik River, upstream from the ADF&G weir site or counting tower, in Black Lake, or any tributary to Black and Chignik Lakes.

(iii) You may take salmon, trout, and char only under the authority of a subsistence fishing permit.

(iv) You must keep a record on your permit of subsistence-caught fish. You must complete the record immediately upon taking subsistence-caught fish and must return it no later than October 31.

(v) If you hold a commercial fishing license, you may not subsistence fish for salmon from 48 hours before the first State commercial salmon fishing opening in the Chignik Area through September 30.

(vi) You may take salmon by seines, gillnets, rod and reel, or with gear specified on a subsistence fishing permit, except that in Chignik Lake you may not use purse seines.

(vii) You may take fish other than salmon by gear listed in this part unless restricted under the terms of a subsistence fishing permit.

(viii) You may take halibut for subsistence purposes only by a single handheld line with no more than two hooks attached.

(ix) You may take no more than 250 salmon for subsistence purposes unless otherwise specified on the subsistence fishing permit.

(x) The daily harvest limit for halibut is two fish, and the possession limit is two daily harvest limits. You may not possess sport-taken and subsistence-taken halibut on the same day.

(9) *Kodiak Area.* The Kodiak Area includes all waters of Alaska south of a line extending east from Cape Douglas (58°51.10' North latitude), west of 150° West longitude, north of 55°30.00' North latitude; and east of the longitude of the southern entrance of Imuya Bay near Kilokak Rocks (156°20.22' West longitude).

(i) You may take fish other than salmon, rainbow/steelhead trout, char, bottomfish, or herring at any time unless restricted by the terms of a subsistence fishing permit. If you take rainbow/steelhead trout incidentally in other subsistence net fisheries, you may retain them for subsistence purposes.

(ii) You may take salmon for subsistence purposes 24 hours a day from January 1 through December 31, with the following exceptions:

(A) From June 1 through September 15, you may not use salmon seine vessels to take subsistence salmon for 24 hours before, during, and for 24 hours after any State open commercial salmon fishing period. The use of skiffs from any type of vessel is allowed;

(B) From June 1 through September 15, you may use purse seine vessels to take salmon only with gillnets, and you may have no other type of salmon gear on board the vessel.

(iii) You may not subsistence fish for salmon in the following locations:

(A) Womens Bay closed waters—all waters inside a line from the tip of the Nyman Peninsula (57°43.23' North latitude, 152°31.51' West longitude), to the northeastern tip of Mary's Island (57°42.40' North latitude, 152°32.00' West longitude), to the southeastern shore of Womens Bay at 57°41.95' North latitude, 152°31.50' West longitude;

(B) Buskin River closed waters—all waters inside of a line running from a marker on the bluff north of the mouth of the Buskin River at approximately 57°45.80' North latitude, 152°28.38' West longitude, to a point offshore at 57°45.35' North latitude, 152°28.15' West longitude, to a marker located onshore south of the river mouth at approximately 57°45.15' North latitude, 152°28.65' West longitude;

(C) All waters closed to commercial salmon fishing within 100 yards of the terminus of Selief Bay Creek;

(D) In Afognak Bay north and west of a line from the tip of Last Point to the tip of River Mouth Point;

(E) From August 15 through September 30, all waters 500 yards seaward of the terminus of Little Kitoi Creek;

(F) All freshwater systems of Afognak Island.

(iv) You must have a subsistence fishing permit for taking salmon, trout, and char for subsistence purposes. You must have a subsistence fishing permit for taking herring and bottomfish for subsistence purposes during the State commercial herring sac roe season from April 15 through June 30.

(v) With a subsistence salmon fishing permit you may take 25 salmon plus an additional 25 salmon for each member of your household whose names are listed on the permit. You may obtain an additional permit if you can show that more fish are needed.

(vi) You must record on your subsistence permit the number of subsistence fish taken. You must complete the record immediately upon landing subsistence-caught fish, and must return it by February 1 of the year following the year the permit was issued.

(vii) You may take fish other than salmon and halibut by gear listed in this part unless restricted under the terms of a subsistence fishing permit.

(viii) You may take salmon only by gillnet, rod and reel, or seine.

(ix) You must be physically present at the net when the net is being fished.

(x) You may take halibut only by a single hand-held line with not more than two hooks attached to it.

(xi) The daily harvest limit for halibut is two fish, and the possession limit is two daily harvest limits. You

may not possess sport-taken and subsistence-taken halibut on the same day.

(10) *Cook Inlet Area.* The Cook Inlet Area includes all waters of Alaska enclosed by a line extending east from Cape Douglas (58°51'06" North latitude) and a line extending south from Cape Fairfield (148°50'15" West longitude).

(i) Unless restricted in this section, or unless restricted under the terms of a subsistence fishing permit, you may take fish at any time in the Cook Inlet Area. If you take rainbow/steelhead trout incidentally in other subsistence net fisheries, you may retain them for subsistence purposes.

(ii) You may not take grayling or burbot for subsistence purposes.

(iii) You may take fish by gear listed in this part unless restricted in this section or under the terms of a subsistence fishing permit (as may be modified by this section).

(iv) You may only take salmon, Dolly Varden, trout, and char under authority of a Federal subsistence fishing permit. Seasons, harvest and possession limits, and methods and means for take are the same as for the taking of those species under Alaska sport fishing regulations (5 AAC 56).

(v) You may only take smelt with dip nets or gillnets in fresh water from April 1 through June 15. You may not use a gillnet exceeding 20 feet in length and 2 inch stretched-mesh. You must attend the net at all times when it is being used. There are no harvest or possession limits for smelt.

(vi) Gillnets may not be used in freshwater, except for the taking of whitefish in the Tyone River drainage or for the taking of smelt.

(11) *Prince William Sound Area.* The Prince William Sound Area includes all waters and drainages of Alaska between the longitude of Cape Fairfield and the longitude of Cape Suckling.

(i) You may take fish, other than rainbow/steelhead trout, in the Prince William Sound Area only under authority of a subsistence fishing permit, except that a permit is not required to take eulachon.

(ii) You may take fish by gear listed in paragraph (c)(1) of this part unless restricted in this section or under the terms of a subsistence fishing permit.

(iii) If you catch rainbow/steelhead trout incidentally in other subsistence net fisheries, you may retain them for subsistence purposes, unless restricted in this section.

(iv) In the Copper River drainage upstream from Haley Creek, you may take salmon only in the waters of the Upper Copper River District, or in the vicinity of the Native Village of Batzulnetas. You may accumulate harvest limits of salmon authorized for the Copper River drainage upstream from Haley Creek with harvest limits for salmon authorized under State of Alaska sport fishing regulations.

(v) In the Upper Copper River District, you may take salmon only by fish wheels, rod and reel, or dip nets.

(vi) Rainbow/steelhead trout and other freshwater fish caught incidentally to salmon by fish wheel in the Upper Copper River District may be retained.

(vii) Freshwater fish other than rainbow/steelhead trout caught incidentally to salmon by dip net in the Upper Copper River District may be retained. Rainbow/steelhead trout caught incidentally to salmon by dip net in the Upper Copper River District must be released unharmed to the water.

(viii) You may not possess salmon taken under the authority of an Upper Copper River District subsistence fishing permit, or rainbow/steelhead trout caught incidentally to salmon by fishwheel, unless the anal (ventral) fin has been immediately removed from the fish. You must immediately record all retained fish on the subsistence permit. Immediately means prior to concealing the fish from plain view or transporting the fish more than 50 feet from where the fish was removed from the water.

(ix) You may take salmon in the Upper Copper River District only from May 15 through September 30.

(x) The total annual harvest limit for subsistence salmon fishing permits in combination for the Glennallen Subdistrict and the Chitina Subdistrict is as follows:

(A) For a household with 1 person, 30 salmon, of which no more than 5 may be chinook salmon taken by dip net and no more than 5 chinook taken by rod and reel;

(B) For a household with 2 persons, 60 salmon, of which no more than 5 may be chinook salmon taken by dip net and no more than 5 chinook taken by rod and reel, plus 10 salmon for each additional person in a household over 2 persons, except that the household's limit for chinook salmon taken by dip net or rod and reel does not increase;

(C) Upon request, permits for additional salmon will be issued for no more than a total of 200 salmon for a permit issued to a household with 1 person, of which no more than 5 may be chinook salmon taken by dip net and no more than 5 chinook taken by rod and reel, or no more than a total of 500 salmon for a permit issued to a household with 2 or more persons, of which no more than 5 may be chinook salmon taken by dip net and no more than 5 chinook taken by rod and reel.

(xi) The following apply to Upper Copper River District subsistence salmon fishing permits:

(A) Only one subsistence fishing permit per subdistrict will be issued to each household per year. If a household has been issued permits for both subdistricts in the same year, both permits must be in your possession and readily available for inspection while fishing or transporting subsistence-taken fish in either subdistrict. A qualified household may also be issued a Batzulnetas salmon fishery permit in the same year;

(B) Multiple types of gear may be specified on a permit, although only one unit of gear may be operated at any one time;

(C) You must return your permit no later than October 31 of the year in which the permit is issued, or you may be denied a permit for the following year;

(D) A fish wheel may be operated only by one permit holder at one time; that permit holder must have the fish wheel marked as required by section 100.27(i)(11) and during fishing operations;

(E) Only the permit holder and the authorized member of the household listed on the subsistence permit may take salmon;

(F) You must personally operate your fish wheel or dip net;

(G) You may not loan or transfer a subsistence fish wheel or dip net permit except as permitted.

(xii) If you are a fishwheel owner:

(A) You must register your fish wheel with ADF&G or the Federal Subsistence Board;

(B) Your registration number and a wood, metal, or plastic plate at least 12 inches high by 12 inches wide bearing either your name and address, or your Alaska driver's license number, or your Alaska State identification card number in letters and numerals at least 1 inch high, must be permanently affixed and plainly visible on the fish wheel when the fish wheel is in the water;

(C) Only the current year's registration number may be affixed to the fish wheel; you must remove any other registration number from the fish wheel;

(D) You are responsible for the fish wheel; you must remove the fish wheel from the water at the end of the permit period;

(E) You may not rent, lease, or otherwise use your fish wheel used for subsistence fishing for personal gain. (xiii) If you are operating a fishwheel:

(A) You may operate only one fish wheel at any one time;

(B) You may not set or operate a fish wheel within 75 feet of another fish wheel;

(C) No fish wheel may have more than two baskets;

(D) If you are a permittee other than the owner, you must attach an additional wood, metal, or plastic plate at least 12 inches high by 12 inches wide, bearing your name and address in letters and numerals at least 1 inch high, to the fish wheel so that the name and address are plainly visible.

(xiv) A subsistence fishing permit may be issued to a village council, or other similarly qualified organization whose members operate fish wheels for subsistence purposes in the Upper Copper River District, to operate fish wheels on behalf of members of its village or organization. The following additional provisions apply to subsistence fishing permits issued under this paragraph (i)(11)(xiv):

(A) The permit will list all households and household members for whom the fish wheel is being operated. The permit will identify a person who

will be responsible for each fish wheel in a similar manner to a fish wheel owner as described in paragraph (i)(11)(xii) of this section;

(B) The allowable harvest may not exceed the combined seasonal limits for the households listed on the permit; the permittee will notify the ADF&G or Federal Subsistence Board when households are added to the list, and the seasonal limit may be adjusted accordingly;

(C) Members of households listed on a permit issued to a village council or other similarly qualified organization are not eligible for a separate household subsistence fishing permit for the Upper Copper River District;

(D) The permit will include provisions for recording daily catches for each fish wheel; location and number of fish wheels; full legal name of the individual responsible for the lawful operation of each fish wheel as described in paragraph (i)(11)(xii) of this section; and other information determined to be necessary for effective resource management.

(xv) You may take salmon in the vicinity of the former Native village of Batzulnetas only under the authority of a Batzulnetas subsistence salmon fishing permit available from the National Park Service under the following conditions:

(A) You may take salmon only in those waters of the Copper River between National Park Service regulatory markers located near the mouth of Tanada Creek and approximately one-half mile downstream from that mouth and in Tanada Creek between National Park Service regulatory markers identifying the open waters of the creek;

(B) You may use only fish wheels, dip nets, and rod and reel on the Copper River and only dip nets, spears, and rod and reel in Tanada Creek;

(C) You may take salmon only from May 15 through September 30 or until the season is closed by special action;

(D) You may retain chinook salmon taken in a fishwheel in the Copper River. You may not take chinook salmon in Tanada Creek;

(E) You must return the permit to the National Park Service no later than October 15.

(xvi) You may take pink salmon for subsistence purposes from freshwater with a dip net from May 15 until September 30, 7 days per week, with no harvest or possession limits in the following areas:

(A) Green Island, Knight Island, Chenega Island, Bainbridge Island, Evans Island, Elrington Island, Latouche Island, and adjacent islands, and the mainland waters from the outer point of Granite Bay located in Knight Island Passage to Cape Fairfield;

(B) Waters north of a line from Porcupine Point to Granite Point, and south of a line from Point Lowe to Tongue Point.

(12) *Yakutat Area.* The Yakutat Area includes all waters and drainages of Alaska between the longitude of Cape Suckling and the longitude of Cape Fairweather.

(i) Unless restricted in this section or unless restricted under the terms of a subsistence fishing permit, you may take fish at any time in the Yakutat Area.

(ii) You may not take salmon during the period commencing 48 hours before a State opening of commercial salmon net fishing season until 48 hours after the closure. This applies to each river or bay fishery individually.

(iii) When the length of the weekly State commercial salmon net fishing period exceeds two days in any Yakutat Area salmon net fishery, the subsistence fishing period is from 6 a.m. to 6 p.m. on Saturday in that location.

(iv) You may take salmon, trout (other than steelhead), and char only under authority of a subsistence fishing permit. You may only take steelhead trout in the Situk and Ahrnklin Rivers and only under authority of a Federal subsistence fishing permit.

(v) If you take salmon, trout, or char incidentally by gear operated under the terms of a subsistence permit for salmon, you may retain them for subsistence purposes. You must report any salmon, trout, or char taken in this manner on your permit calendar.

(vi) You may take fish by gear listed in this part unless restricted in this

section or under the terms of a subsistence fishing permit.

(vii) In the Situk River, each subsistence salmon fishing permit holder shall attend his or her gill net at all times when it is being used to take salmon.

(viii) You may block up to two-thirds of a stream with a gillnet or seine used for subsistence fishing.

(ix) You must remove the dorsal fin from subsistence-caught salmon when taken.

(x) You may not possess subsistence-taken and sport-taken salmon on the same day.

(xi) You must possess a subsistence fishing permit to take Dolly Varden. The daily harvest and possession limit is 10 Dolly Varden of any size.

(13) *Southeastern Alaska Area.* The Southeastern Alaska Area includes all waters between a line projecting southwest from the westernmost tip of Cape Fairweather and Dixon Entrance.

(i) Unless restricted in this section or under the terms of a subsistence fishing permit, you may take fish other than salmon, rainbow/steelhead trout, and char in the Southeastern Alaska Area at any time.

(ii) From July 7 through July 31, you may take sockeye salmon in the waters of the Klawock River and Klawock Lake only from 8 a.m. Monday until 5 p.m. Friday.

(iii) You must possess a subsistence fishing permit to take salmon, trout, or char. You must possess a subsistence fishing permit to take steelhead in Hamilton Bay and Kadake Bay Rivers. You must possess a subsistence fishing permit to take eulachon from any freshwater stream flowing into fishing sections 1-C or 1-D.

(iv) You may take steelhead trout on Prince of Wales and Kosciusko Islands under the terms of Federal subsistence fishing permits. You must obtain a separate permit for the winter and spring seasons.

(A) The winter season is December 1 through the last day of February, with a harvest limit of 2 fish per household. You may use only a dip net, spear, or rod and reel with artificial lure or fly. You may not use bait. The winter season may be closed when the harvest level cap of 100 steelhead for Prince of Wales/Kosciusko Islands has been

reached. You must return your winter season permit within 15 days of the close of the season and before receiving another permit for a Prince of Wales/Kosciusko steelhead subsistence fishery. The permit conditions and systems to receive special protection will be determined by the local Federal fisheries manager in consultation with ADF&G.

(B) The spring season is March 1 through May 31, with a harvest limit of 5 fish per household. You may use only a dip net, spear, or rod and reel with artificial lure or fly. You may not use bait. The spring season may be closed prior to May 31 if the harvest quota of 600 fish minus the number of steelhead harvested in the winter subsistence steelhead fishery is reached. You must return your spring season permit within 15 days of the close of the season and before receiving another permit for a Prince of Wales/Kosciusko steelhead subsistence fishery. The permit conditions and systems to receive special protection will be determined by the local Federal fisheries manager in consultation with ADF&G.

(v) In the Southeastern Alaska Area, except for sections 3A, 3B, and 3C and the Stikine and Taku Rivers, you may take coho salmon under the terms of a subsistence fishing permit. There is no closed season. The daily harvest limit is 20 coho salmon per household, and the annual limit is 40 coho salmon per household. Only dipnets, spears, gaffs, and rod and reel may be used. Bait may only be used from September 15 through November 15. You may not retain incidentally caught trout and sockeye salmon unless taken by gaff or spear.

(vi) You may take coho salmon in Subdistricts 3(A), (B), and (C) only under the terms of a Federal subsistence fishing permit. There is no closed season. The daily harvest limit is 20 fish per household. Only spears, dip net, and rod and reel may be used. Bait may be used only from September 15 through November 15.

(vii) If you take salmon, trout, or char incidentally with gear operated under terms of a subsistence permit for other salmon, they may be kept for subsistence purposes. You must report any salmon, trout, or char taken in this manner on your permit calendar.

(viii) No permits for the use of nets will be issued for the salmon streams flowing across or adjacent to the road systems within the city limits of Petersburg, Wrangell, and Sitka.

(ix) You shall immediately remove the pelvic fins of all salmon when taken.

(x) You may not possess subsistence-taken and sport-taken salmon on the same day.

(xi) For the Salmon Bay Lake system, the daily harvest and season limit per household is 30 sockeye salmon.

(xii) For Virginia Lake (Mill Creek), the daily harvest limit per household is 20 sockeye salmon, and the season limit per household is 40 sockeye salmon.

(xiii) For Thoms Creek, the daily harvest limit per household is 20 sockeye salmon, and the season limit per household is 40 sockeye salmon.

(xiv) The Sarkar River system above the bridge is closed to the use of all nets by both Federally-qualified and non-Federally qualified users.

(xv) Only Federally-qualified subsistence users may harvest sockeye salmon in streams draining into Falls Lake Bay, Gut Bay, or Pillar Bay. In the Falls Lake Bay and Gut Bay drainages, the possession limit is 10 sockeye salmon per household. In the Pillar Bay drainage, the individual possession limit is 15 sockeye salmon with a household possession limit of 25 sockeye salmon.

(xvi) In Baranof Lake, Florence Lake, Hasselborg Lake and River, Mirror Lake, Virginia Lake, and Wilson Lake, in addition to the requirement for a Federal subsistence fishing permit, the following restrictions for the harvest of Dolly Varden, cutthroat, and rainbow trout apply:

(A) The daily harvest and possession limit is 10 Dolly Varden of any size;

(B) The daily harvest and possession limit is six cutthroat or rainbow trout in combination. You may only retain fish between 11" and 22". You may only use a rod and reel without bait.

(xvii) In all waters, other than those identified in paragraph (i)(13)(xvi) of this section, in addition to the requirement for a subsistence fishing permit, you may harvest Dolly Varden and cutthroat and rainbow trout in accordance

§ 100.28

50 CFR Ch. I (10–1–04 Edition)

with the seasons and harvest limits delineated in the Alaska Administrative Code, 5 AAC 47. You may only use a rod and reel without bait unless the use of bait is specifically permitted in 5 AAC 47.

[69 FR 5025, Feb. 3, 2004]

EFFECTIVE DATE NOTE: At 69 FR 5025, Feb. 3, 2004, § 100.27 was added, effective Mar. 1, 2004 through Mar. 31, 2005.

§ 100.28 Subsistence taking of shellfish.

(a) Regulations in this section apply to subsistence taking of Dungeness crab, king crab, Tanner crab, shrimp, clams, abalone, and other shellfish or their parts.

(b) [Reserved]

(c) You may take shellfish for subsistence uses at any time in any area of the public lands by any method unless restricted by this section.

(d) *Methods, means, and general restrictions.* (1) The harvest limit specified in this section for a subsistence season for a species and the State harvest limit set for a State season for the same species are not cumulative. This means that if you have taken the harvest limit for a particular species under a subsistence season specified in this section, you may not, after that, take any additional shellfish of that species under any other harvest limit specified for a State season.

(2) Unless otherwise provided in this section or under terms of a required subsistence fishing permit (as may be modified by this section), you may use the following legal types of gear to take shellfish:

- (i) Abalone iron;
- (ii) Diving gear;
- (iii) A grappling hook;
- (iv) A handline;
- (v) A hydraulic clam digger;
- (vi) A mechanical clam digger;
- (vii) A pot;
- (viii) A ring net;
- (ix) A scallop dredge;
- (x) A sea urchin rake;
- (xi) A shovel; and
- (xii) A trawl.

(3) You are prohibited from buying or selling subsistence-taken shellfish, their parts, or their eggs, unless otherwise specified.

(4) You may not use explosives and chemicals, except that you may use chemical baits or lures to attract shellfish.

(5) Marking requirements for subsistence shellfish gear are as follows:

(i) You must plainly and legibly inscribe your first initial, last name, and address on a keg or buoy attached to unattended subsistence fishing gear, except when fishing through the ice, you may substitute for the keg or buoy a stake inscribed with your first initial, last name, and address inserted in the ice near the hole; subsistence fishing gear may not display a permanent ADF&G vessel license number;

(ii) Kegs or buoys attached to subsistence crab pots also must be inscribed with the name or United States Coast Guard number of the vessel used to operate the pots.

(6) Pots used for subsistence fishing must comply with the escape mechanism requirements found in § 100.27(c)(2).

(7) You may not mutilate or otherwise disfigure a crab in any manner which would prevent determination of the minimum size restrictions until the crab has been processed or prepared for consumption.

(e) *Taking shellfish by designated harvest permit.* (1) Any species of shellfish that may be taken by subsistence fishing under this part may be taken under a designated harvest permit.

(2) If you are a Federally-qualified subsistence user (beneficiary), you may designate another Federally-qualified subsistence user to take shellfish on your behalf. The designated fisherman must obtain a designated harvest permit prior to attempting to harvest shellfish and must return a completed harvest report. The designated fisherman may harvest for any number of beneficiaries but may have no more than two harvest limits in his/her possession at any one time.

(3) The designated fisherman must have in possession a valid designated harvest permit when taking, attempting to take, or transporting shellfish taken under this section, on behalf of a beneficiary.

(4) You may not fish with more than one legal limit of gear as established by this section.

(5) You may not designate more than one person to take or attempt to take shellfish on your behalf at one time. You may not personally take or attempt to take shellfish at the same time that a designated fisherman is taking or attempting to take shellfish on your behalf.

(f) If a subsistence shellfishing permit is required by this section, the following conditions apply unless otherwise specified by the subsistence regulations in this section:

(1) You may not take shellfish for subsistence in excess of the limits set out in the permit unless a different limit is specified in this section;

(2) You must obtain a permit prior to subsistence fishing;

(3) You must have the permit in your possession and readily available for inspection while taking or transporting the species for which the permit is issued;

(4) The permit may designate the species and numbers of shellfish to be harvested, time and area of fishing, the type and amount of fishing gear and other conditions necessary for management or conservation purposes;

(5) If specified on the permit, you must keep accurate daily records of the catch involved, showing the number of shellfish taken by species, location and date of the catch, and such other information as may be required for management or conservation purposes;

(6) You must complete and submit subsistence fishing reports at the time specified for each particular area and fishery;

(7) If the return of catch information necessary for management and conservation purposes is required by a subsistence fishing permit and you fail to comply with such reporting requirements, you are ineligible to receive a subsistence permit for that activity during the following calendar year, unless you demonstrate that failure to report was due to loss in the mail, accident, sickness, or other unavoidable circumstances.

(g) *Subsistence take by commercial vessels.* No fishing vessel which is commercially licensed and registered for shrimp pot, shrimp trawl, king crab, Tanner crab, or Dungeness crab fishing may be used for subsistence take dur-

ing the period starting 14 days before an opening until 14 days after the closure of a respective open season in the area or areas for which the vessel is registered. However, if you are a commercial fisherman, you may retain shellfish for your own use from your lawfully taken commercial catch.

(h) You may not take or possess shellfish smaller than the minimum legal size limits.

(i) *Unlawful possession of subsistence shellfish.* You may not possess, transport, give, receive, or barter shellfish or their parts taken in violation of Federal or State regulations.

(j)(1) An owner, operator, or employee of a lodge, charter vessel, or other enterprise that furnishes food, lodging, or guide services may not furnish to a client or guest of that enterprise, shellfish that has been taken under this section, unless:

(i) The shellfish has been taken with gear deployed and retrieved by the client or guest who is a federally-qualified subsistence user;

(ii) The gear has been marked with the client's or guest's name and address; and

(iii) The shellfish is to be consumed by the client or guest or is consumed in the presence of the client or guest.

(2) The captain and crewmembers of a charter vessel may not deploy, set, or retrieve their own gear in a subsistence shellfish fishery when that vessel is being chartered.

(k) *Subsistence shellfish areas and pertinent restrictions.* (1) *Southeastern Alaska-Yakutat Area.* No marine waters are currently identified under Federal subsistence management jurisdiction.

(2) *Prince William Sound Area.* No marine waters are currently identified under Federal subsistence management jurisdiction.

(3) *Cook Inlet Area.* (i) You may take shellfish for subsistence purposes only as allowed in this section (k)(3).

(ii) You may not take king crab, Dungeness crab, or shrimp for subsistence purposes.

(iii) In the subsistence taking of Tanner crab:

(A) Male Tanner crab may be taken only from July 15 through March 15;

(B) The daily harvest and possession limit is 5 male Tanner crabs;

(C) Only male Tanner crabs 5½ inches or greater in width of shell may be taken or possessed;

(D) No more than 2 pots per person, regardless of type, with a maximum of 2 pots per vessel, regardless of type, may be used to take Tanner crab.

(iv) In the subsistence taking of clams:

(A) The daily harvest and possession limit for littleneck clams is 1,000 and the minimum size is 1.5 inches in length;

(B) The daily harvest and possession limit for butter clams is 700 and the minimum size is 2.5 inches in length.

(v) Other than as specified in this section, there are no harvest, possession, or size limits for other shellfish, and the season is open all year.

(4) *Kodiak Area.* (i) You may take crab for subsistence purposes only under the authority of a subsistence crab fishing permit issued by the ADF&G.

(ii) The operator of a commercially licensed and registered shrimp fishing vessel must obtain a subsistence fishing permit from the ADF&G before subsistence shrimp fishing during a State closed commercial shrimp fishing season or within a closed commercial shrimp fishing district, section, or subsection. The permit must specify the area and the date the vessel operator intends to fish. No more than 500 pounds (227 kg) of shrimp may be in possession aboard the vessel.

(iii) The daily harvest and possession limit is 12 male Dungeness crabs per person; only male Dungeness crabs with a shell width of 6½ inches or greater may be taken or possessed. Taking of Dungeness crab is prohibited in water 25 fathoms or more in depth during the 14 days immediately before the State opening of a commercial king or Tanner crab fishing season in the location.

(iv) In the subsistence taking of king crab:

(A) The annual limit is six crabs per household; only male king crab with shell width of 7 inches or greater may be taken or possessed;

(B) All crab pots used for subsistence fishing and left in saltwater unattended longer than a 2-week period must have all bait and bait containers

removed and all doors secured fully open;

(C) You may only use one crab pot, which may be of any size, to take king crab;

(D) You may take king crab only from June 1 through January 31, except that the subsistence taking of king crab is prohibited in waters 25 fathoms or greater in depth during the period 14 days before and 14 days after State open commercial fishing seasons for red king crab, blue king crab, or Tanner crab in the location;

(E) The waters of the Pacific Ocean enclosed by the boundaries of Womens Bay, Gibson Cove, and an area defined by a line ½ mile on either side of the mouth of the Karluk River, and extending seaward 3,000 feet, and all waters within 1,500 feet seaward of the shoreline of Afognak Island are closed to the harvest of king crab except by Federally-qualified subsistence users.

(v) In the subsistence taking of Tanner crab:

(A) You may not use more than five crab pots to take Tanner crab;

(B) You may not take Tanner crab in waters 25 fathoms or greater in depth during the 14 days immediately before the opening of a State commercial king or Tanner crab fishing season in the location;

(C) The daily harvest and possession limit per person is 12 male crabs with a shell width 5½ inches or greater.

(5) *Alaska Peninsula-Aleutian Islands Area.* (i) The operator of a commercially licensed and registered shrimp fishing vessel must obtain a subsistence fishing permit from the ADF&G prior to subsistence shrimp fishing during a closed State commercial shrimp fishing season or within a closed commercial shrimp fishing district, section, or subsection; the permit must specify the area and the date the vessel operator intends to fish; no more than 500 pounds (227 kg) of shrimp may be in possession aboard the vessel.

(ii) The daily harvest and possession limit is 12 male Dungeness crabs per person; only crabs with a shell width of 5½ inches or greater may be taken or possessed.

(iii) In the subsistence taking of king crab:

U.S. Fish and Wildlife Serv., Interior

Ch. I, App. A

(A) The daily harvest and possession limit is six male crabs per person; only crabs with a shell width of 6½ inches or greater may be taken or possessed;

(B) All crab pots used for subsistence fishing and left in saltwater unattended longer than a 2-week period must have all bait and bait containers removed and all doors secured fully open;

(C) You may take crabs only from June 1 through January 31.

(iv) The daily harvest and possession limit is 12 male Tanner crabs per person; only crabs with a shell width of 5½ inches or greater may be taken or possessed.

(6) *Bering Sea Area.* (i) In that portion of the area north of the latitude of Cape Newenham, shellfish may only be taken by shovel, jigging gear, pots, and ring net.

(ii) The operator of a commercially licensed and registered shrimp fishing vessel must obtain a subsistence fishing permit from the ADF&G prior to subsistence shrimp fishing during a closed commercial shrimp fishing season or within a closed commercial shrimp fishing district, section, or subsection; the permit must specify the area and the date the vessel operator intends to fish; no more than 500 pounds (227 kg) of shrimp may be in possession aboard the vessel.

(iii) In waters south of 60° North latitude, the daily harvest and possession limit is 12 male Dungeness crabs per person.

(iv) In the subsistence taking of king crab:

(A) In waters south of 60° North latitude, the daily harvest and possession limit is six male crabs per person;

(B) All crab pots used for subsistence fishing and left in saltwater unattended longer than a 2-week period must have all bait and bait containers removed and all doors secured fully open;

(C) In waters south of 60° North latitude, you may take crab only from June 1 through January 31;

(D) In the Norton Sound Section of the Northern District, you must have a subsistence permit.

(v) In waters south of 60° North latitude, the daily harvest and possession limit is 12 male Tanner crabs.
